Technology Updates

Henrik Andersson

Chief Innovation & Technology Officer

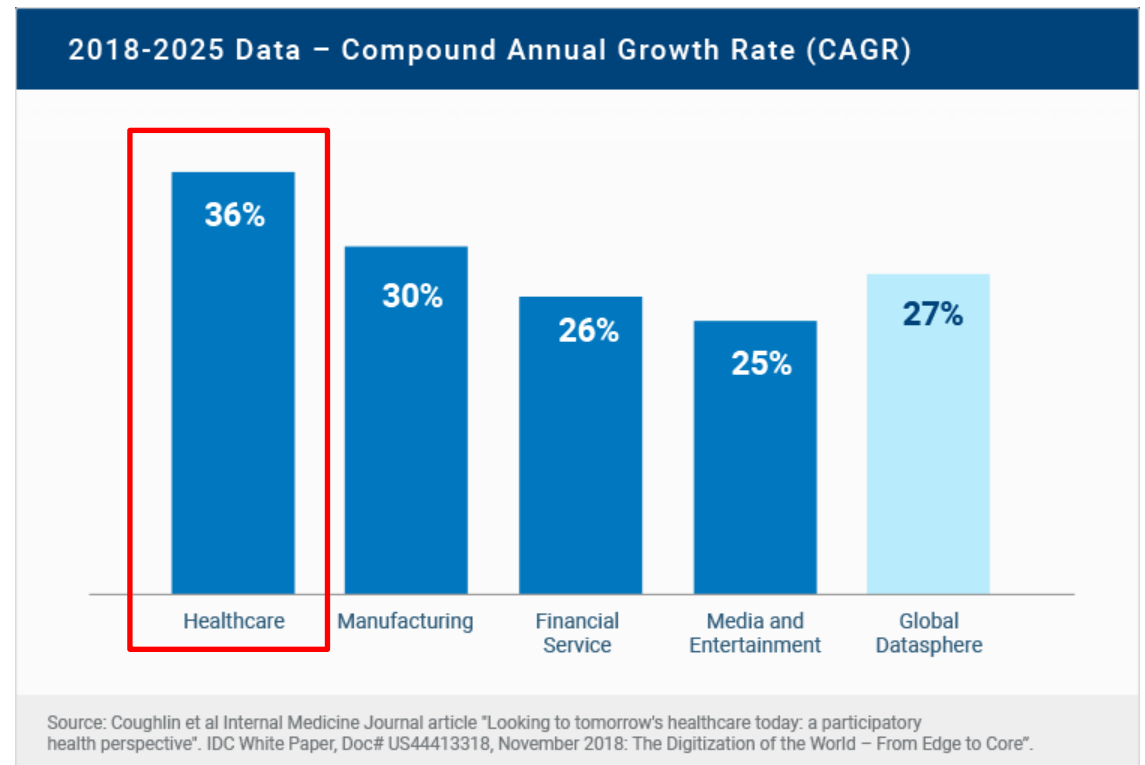

/ Technology matters in Healthcare

Healthcare adopts **technology rapidly** across many areas...

- AI everywhere
- Ever higher resolution imaging and video
- Genomics, multi-omics, precision medicine
- IoT medical devices and wearables
- Digital patient twinning

...and more

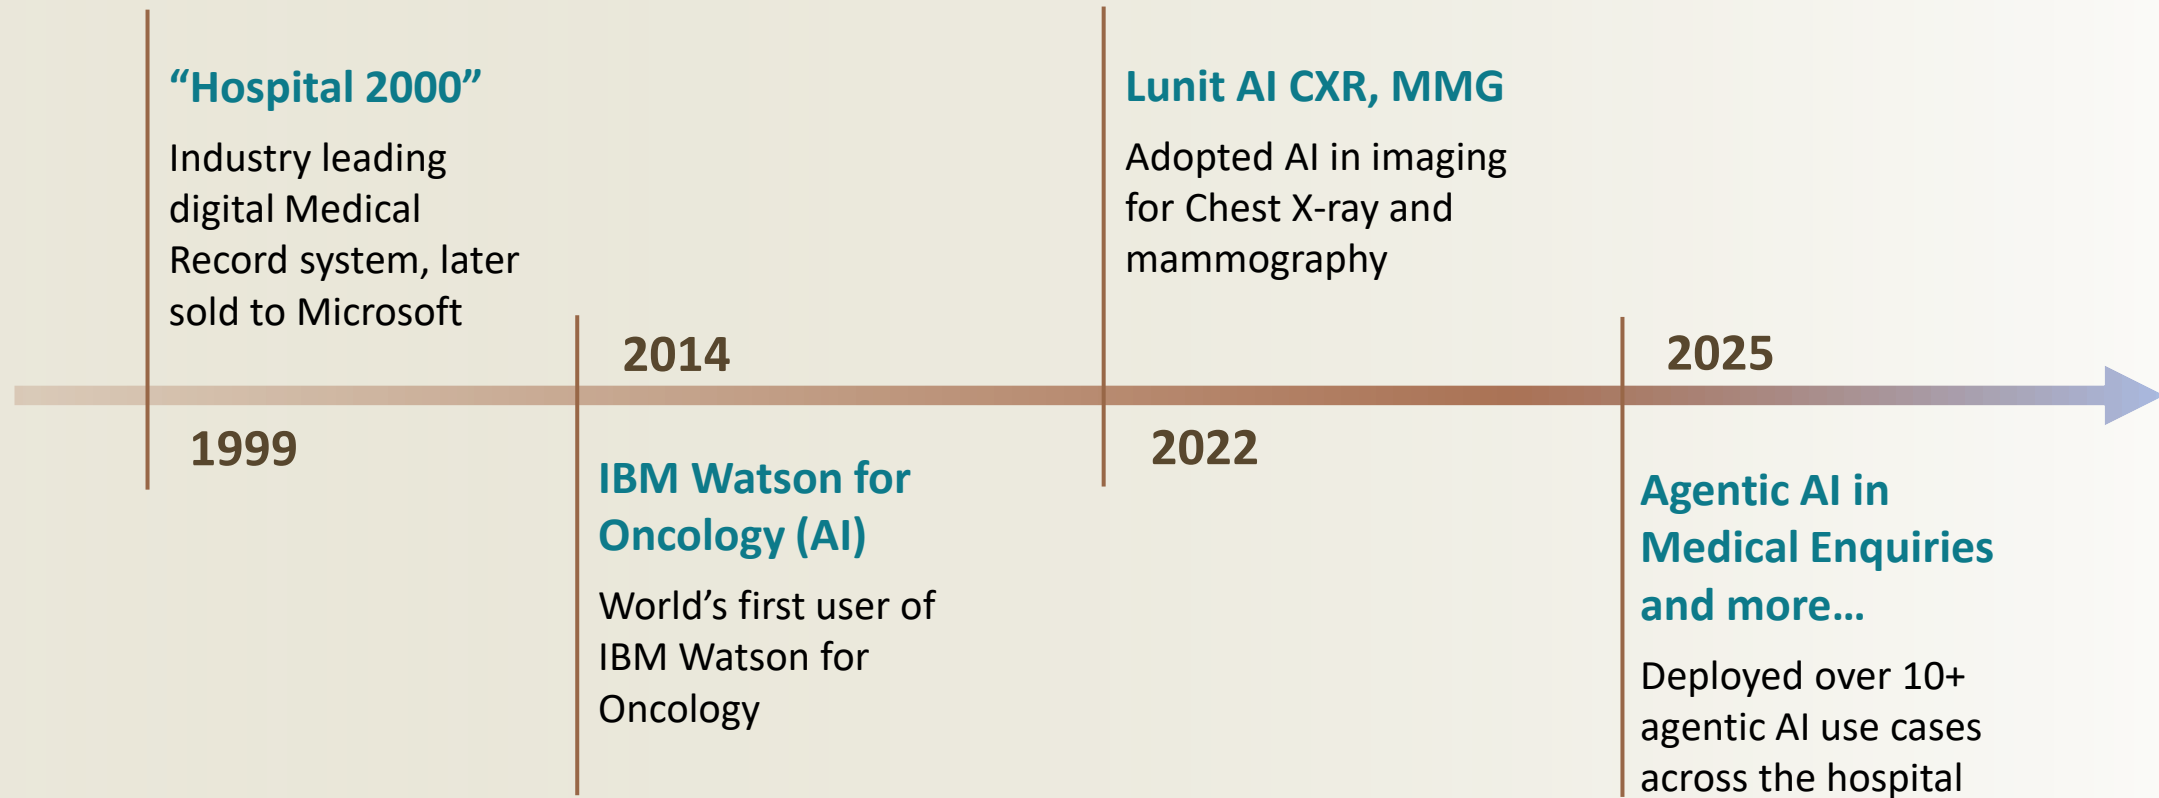

...which drives **faster data growth** than **ANY** other industry

/ Technology has always been a Bumrungrad differentiator

Mission:

“...transform hospital operations with **innovation and advanced technologies**”

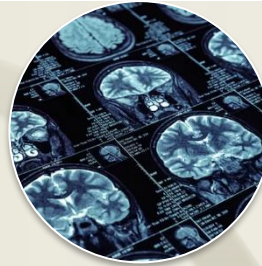

/ In 2026 Bumrungrad is continuing this journey

2026

Technology driving:

- Clinical outcomes
- Patient experience and trust

Expand use of **AI in Imaging**

Digitize and Automate
International Patient Services

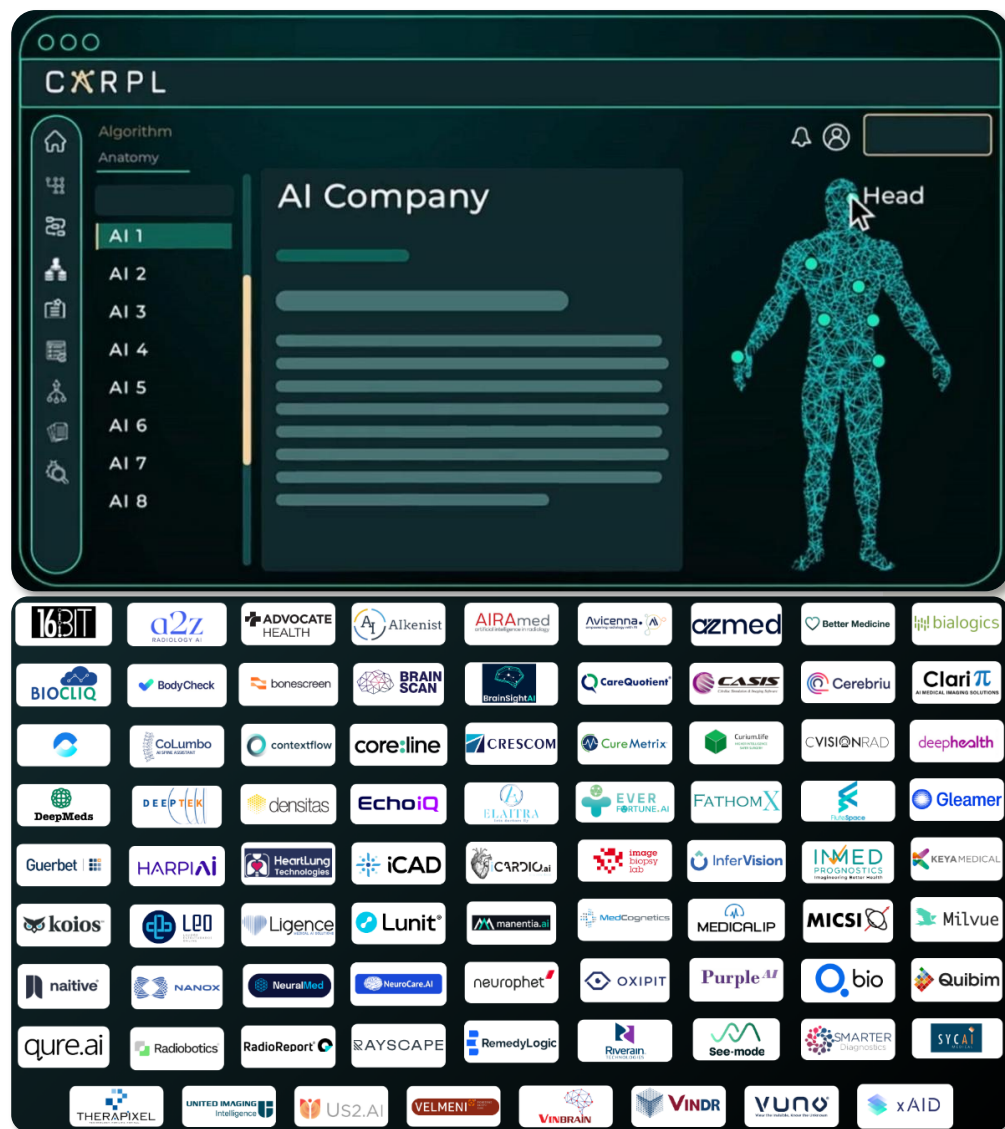

Fully integrate **AI in our Hospital Information System**

Strengthen **Resiliency and Cyber**
Protection

/ 2026 initiative: Expand use of AI in Imaging

Bumrungrad is deploying a vendor neutral platform that gives us access to **250+ AI applications, from 85+ AI vendors**

This will allow us to apply **AI to ALL modalities and clinical areas**, resulting in

- Benefits for patient outcomes
- Benefits for Radiologists and Clinicians

The platform allows us to **stay up to date** as new algorithms are developed

/ 2026 initiative: Digitize and Automate International Patient Services

With **two-thirds of revenue** from non-Thai patients, we are digitizing our International Patient Services operations

This will allow us to **serve more patients better and faster**, with greater consistency and transparency

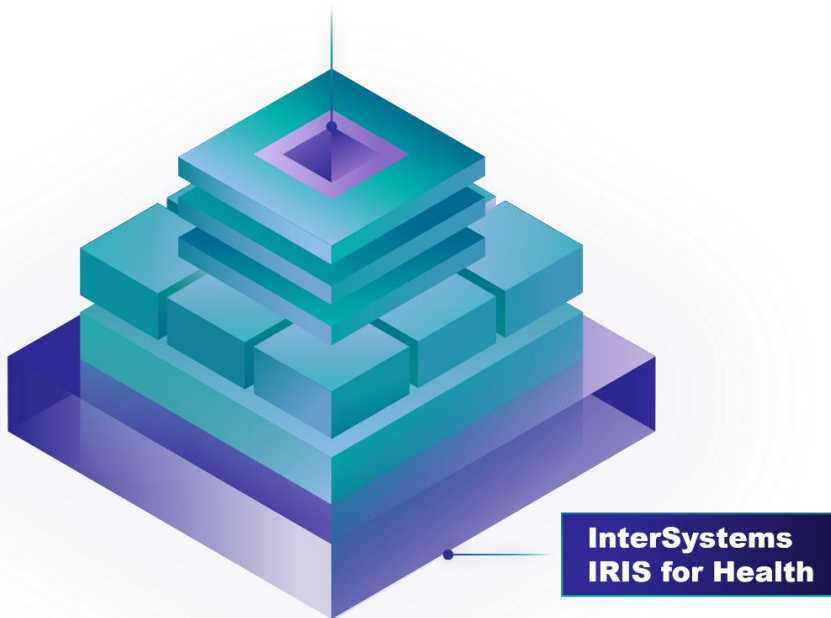

It will also set us up to deploy **AI and automation to support our staff** in delivering the excellent service they are known for

/ 2026 initiative: Fully integrate AI in our Hospital Information System

AI-enhanced Patient
Record at the Core

We are integrating **AI directly in our Hospital Information System** – used by all clinical staff (over 5,500+ users)

Features securely available, in a patient context:

- Natural language **navigation of records**
- Clinician-specific **summaries**
- AI drafted **orders and documentation**
- **Ambient recording**, in any language

Patient privacy & data protection, record integrity & accuracy, and human-in-the-loop are paramount in this deployment

/ 2026 initiative: Strengthen Resiliency and Cyber Protection

Strengthening Resiliency and improving Cyber Protection is an ever-green initiative at Bumrungrad

Per policy, we do not share details, however:

- We use **globally leading systems and tools** across our environment
- We use **AI combined with highly specialized staff** for monitoring and response

Cybersecurity is non-negotiable and critical for our patients' trust in us

/ ...and more initiatives are underway in 2026 and beyond

Deployment of Agentic AI in patient correspondence and contact centers

Intelligent insurance handling from Coverage Verification to Payment

AI-driven Clinical Decision Support systems in selected areas

Digital twin patient profiles to support participatory medicine

/ Bumrungrad – Trusted Innovation in Technology

Vision

Bumrungrad International Hospital aims to be the most **trusted** healthcare and wellness destination

Mission

“...transform hospital operations with **innovation** and advanced technologies”

Based on our foundation of **Trust and Innovation**, in 2026 we are implementing

- **Stronger governance** of technology, including AI, Cybersecurity
- **Stronger technology teams** to support the innovation agenda
- **Closer collaboration** with users to support adoption of new technology
