Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of Bumrungrad Hospital Public Company Limited

I have reviewed the accompanying consolidated financial information of Bumrungrad Hospital Public Company Limited and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2026, the related consolidated statements of income and comprehensive income for the three-month and six-month periods then ended, and the related consolidated statements of changes in shareholders' equity and cash flows for the six-month period then ended, as well as the condensed notes to the interim consolidated financial statements. I have also reviewed the separate financial information of Bumrungrad Hospital Public Company Limited for the same periods (collectively "the interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 Interim Financial Reporting. My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the standards as applicable to auditing issued by the Federation of Accounting Professions and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 Interim Financial Reporting.

Bumrungrad Hospital Public Company Limited and its subsidiaries

Condensed notes to interim financial statements

For the three-month and six-month periods ended 30 June 2026

1. General information

1.1 Basis of the preparation of interim financial statements

These interim financial statements are prepared in accordance with Thai Accounting Standard No. 34 Interim Financial Reporting, with the Company presenting condensed interim financial statements. The Company has presented the statements of financial position, income, comprehensive income, changes in shareholders' equity, and cash flows in the same format as that used for the annual financial statements and has presented notes to the interim financial statements on a condensed basis.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language interim financial statements.

1.2 Basis of consolidation

The interim consolidated financial statements include the financial statements of Bumrungrad Hospital Public Company Limited ("the Company") and its subsidiary companies ("the subsidiaries") (collectively as "the Group") and have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2025.

During the current period, there were changes in shareholding structure of Group as described in the condensed Note 5 to the interim financial statements.

1.3 Accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2025.

The revised financial reporting standards, which are effective for fiscal years beginning on or after 1 January 2026, do not have any significant impact on the Group's financial statements.

In addition, the Federation of Accounting Professions has issued new and revised financial reporting standards which will become effective in the future. The standard involving changes to key principles is summarised below.

TFRS 18 Presentation and Disclosure in Financial Statements

TFRS 18 will become effective for annual reporting periods beginning on or after 1 January 2028 and supersedes TAS 1, Presentation of Financial Statements. The standard introduces new requirements for classifying income and expenses into categories and presenting subtotals in the statement of profit or loss. It also requires disclosures of management-defined performance measures and includes new requirements for the aggregation and disaggregation of financial information.

The management of the Group is currently evaluating the impact of this standard on the financial statements in the year of initial adoption.

2. Related party transactions

During the periods, the Group had significant business transactions with related parties. Such transactions arose in the ordinary course of business and were concluded on commercial terms and bases agreed upon between the Group and those related parties. There were no significant changes in the transfer pricing policy of transactions with related parties during the current period.

Significant business transactions with related parties are summarised as follows:

7. Earnings per share

Basic earnings per share is calculated by dividing profit for the period attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the period.

Diluted earnings per share is calculated by dividing profit for the period attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the period plus the weighted average number of ordinary shares which would need to be issued to convert all dilutive potential ordinary shares into ordinary shares. The calculation assumes that the conversion took place either at the beginning of the period or on the date the potential ordinary shares were issued.

The following tables set forth the computation of basic and diluted earnings per share.
