

Bumrungrad Hospital Public Company Limited
and its subsidiaries
Report and consolidated and separate financial statements
31 December 2025

Independent Auditor's Report

To the Shareholders of Bumrungrad Hospital Public Company Limited

Opinion

I have audited the accompanying consolidated financial statements of Bumrungrad Hospital Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2025, and the related consolidated statements of income, comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the financial statements, including material accounting policy information, and have also audited the separate financial statements of Bumrungrad Hospital Public Company Limited for the same period (collectively "the financial statements").

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Bumrungrad Hospital Public Company Limited and its subsidiaries and of Bumrungrad Hospital Public Company Limited as at 31 December 2025, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Group in accordance with the *Code of Ethics for Professional Accountants including Independence Standards* issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matter

Key audit matter is this matter that, in my professional judgement, was of most significance in my audit of the financial statements of the current period. This matter was addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on this matter.

I have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report, including in relation to this matter. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matter below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

Key audit matter and how audit procedures respond to the matter are described below.

Revenues recognition from hospital operations

Revenues from hospital operations represents a significant portion of the financial statements, accounting for approximately 99% of consolidated total revenues. In addition, it consists of many compositions, such as revenues from sales of medicines, revenues from medical services, revenues from patient rooms, etc., including discounts for counterparties, e.g. insurance companies, embassies and other several counterparties, whereas the agreements contain vary conditions for each party. Therefore, I have taken a special consideration in the appropriateness of the occurrence and the amount of revenue recognition.

I have examined the revenue recognition from hospital operations of the Group by

- Assessing and testing the Group's IT system and its internal controls with respect to the revenues from hospital operations cycle by making enquiry of responsible management, gaining an understanding of the controls and selecting representative samples to test the operation of the designed relevant internal controls.
- On a sampling basis, examining supporting documents for revenue recognition from hospital operations transactions occurring during the period and near the period-end.
- Reviewing credit notes that the Group issued after the period-end.
- Performing analytical procedures on disaggregated data to detect possible irregularities in revenues recognition from hospital operations transactions throughout the period, especially for accounting entries made through journal vouchers.

Other Information

Management is responsible for the other information. The other information comprise the information included in annual report of the Group, but does not include the financial statements and my auditor's report thereon.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion.
The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matter. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.

Bumrungrad Hospital Public Company Limited and its subsidiaries

Notes to financial statements

For the year ended 31 December 2025

1. General information

Bumrungrad Hospital Public Company Limited (“the Company”) is a public company incorporated and domiciled in Thailand. The Company is principally engaged in hospital business and investment in other companies. The registered office of the Company is at 33 Soi 3 (Nana Nua) Sukhumvit Road, Klongtoey Nua Sub District, Wattana District, Bangkok.

2. Basis of preparation

- 2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

2.2 Basis of consolidation

- a) The consolidated financial statements include the financial statements of Bumrungrad Hospital Public Company Limited (“the Company”) and the following subsidiary companies (“the subsidiaries”) (collectively as “the Group”):

Company	Nature of business	Country of incorporation	Percentage of shareholding	
			2025	2024
			(%)	(%)
<u>Subsidiaries held by the Company</u>				
Vitalife Corporation Ltd. (“VTL”)	Healthcare center	Thailand	100	100
Asia Global Research Co., Ltd. (“AGR”)	Clinical research service, cancer treatment center and distribution of pharmaceutical and medical goods in specialised store	Thailand	100	100
Ruenmongkol Co., Ltd. (“RM”)	A holding real estate assets company	Thailand	100	100
Bumrungrad Health Network Co., Ltd. (“BHN”)	Overseas investment and hospital consulting and management	Thailand	100	100
Bumrungrad Personnel Development and Training Center Co., Ltd. (“BPDTC”)	Personnel development and training center for healthcare service businesses to affiliated companies	Thailand	100	100

Company	Nature of business	Country of incorporation	Percentage of shareholding	
			2025	2024
			(%)	(%)
Asia Global Health Ltd. ("AGH")	Investment in healthcare business	Hong Kong	-	100
Life and Longevity Ltd. ("LLL")	Overseas investment	Hong Kong	-	100
Health Horizons Enterprises Pte. Ltd. ("HHE")	Overseas investment	Singapore	80	80
Bumrungrad Services Co., Ltd. ("BS")	Referral services to both domestic and foreign patients and training center for healthcare service business	Thailand	100	100
Vitalife Allianz Co., Ltd. ("VTLA")	Wellness center clinic consulting and management	Thailand	100	100
Bumrungrad International Hospital Phuket Co., Ltd. ("BIHP")	Operation of hospital	Thailand	100	100
<u>Subsidiaries held by subsidiaries</u>				
Bumrungrad Mongolia LLC ("BML") (Investment through BHN)	Overseas investment	Mongolia	80	80
Seoul Seniors Tower LLC ("SST") (Investment through BML)	Operation of hospital	Mongolia	41	41

Keyoniq Technologies AG ("KYQT") (Investment through BHN and formerly known as "Keyoniq Switzerland AG" as described in Note 11.3 to the financial statements)	Software development for healthcare services	Swiss Confederation	100	100
Keyoniq Health AG ("KYQH") (Investment through BHN and formerly known as "Vitalife Switzerland AG" as described in Note 11.3 to the financial statements)	Manufacture and sale of vitamins supplement products	Swiss Confederation	100	100

- b) The Group is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.
- c) Subsidiaries are fully consolidated, being the date on which the Group obtains control, and continue to be consolidated until the date when such control ceases.
- d) The financial statements of the subsidiaries are prepared using the same significant accounting policies as the Company.

- e) The assets and liabilities in the financial statements of overseas subsidiaries are translated to Baht using the exchange rate prevailing on the end of reporting period, and revenues and expenses translated using monthly average exchange rates. The resulting differences are shown under the caption of “Exchange differences on translation of financial statements in foreign currencies” in the statement of changes in shareholders’ equity.
 - f) Material balances and transactions between the Group have been eliminated from the consolidated financial statements.
 - g) Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries that are not held by the Group and are presented separately in the consolidated profit or loss and within equity in the consolidated statement of financial position.
- 2.3 The separate financial statements present investments in subsidiaries, joint venture and associate under the cost method.

3. New financial reporting standards

3.1 Financial reporting standards that became effective in the current year

During the year, the Group has adopted the revised financial reporting standards which are effective for fiscal years beginning on or after 1 January 2025. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The adoption of these financial reporting standards does not have any significant impact on the Group’s financial statements.

3.2 Financial reporting standards that will become effective for fiscal years beginning on or after 1 January 2026

The Federation of Accounting Professions issued a number of revised financial reporting standards, which are effective for fiscal years beginning on or after 1 January 2026. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The management of the Group believes that adoption of these amendments will not have any significant impact on the Group’s financial statements.

4. Accounting policies

4.1 Revenue and expense recognition

Revenues from hospital operations

Revenues from hospital operations, mainly consisting of medical fees, hospital room sales, and medicine sales, are recognised as income when services have been rendered or medicine delivered and are measured at the amount of the consideration received or receivable after deducting discounts.

Rental income

Rental income and related service income are recognised on a straight-line basis over the lease term.

Finance income

Interest income is calculated using the effective interest method and recognised on an accrual basis. The effective interest rate is applied to the gross carrying amount of a financial asset, unless the financial assets subsequently become credit-impaired when it is applied to the net carrying amount of the financial asset (net of the expected credit loss allowance).

Finance cost

Interest expense from financial liabilities at amortised cost is calculated using the effective interest method and recognised on an accrual basis.

Dividends

Dividends income are recognised when the right to receive the dividends is established.

4.2 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

4.3 Inventories

Inventories are valued at the lower of cost (weighted average basis) and net realisable value.

4.4 Investments in subsidiaries, joint venture and associate

Investment in joint venture and associate are accounted for in the consolidated financial statements using the equity method.

Investments in subsidiaries, joint venture and associate are accounted for in the separate financial statements using the cost method.

4.5 Business combination

Business combinations are accounted for using the acquisition method, excluding a business combination under common control. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at the acquisition date fair value, the amount of any non-controlling interests in the acquiree and the acquisition date fair value of the Group's previously held equity interest in the acquiree, in a business combination achieved in stages.

Acquisition-related costs are expensed as incurred and included in administrative expenses.

The Group measures the identifiable assets acquired and the liabilities assumed at acquisition date fair value, and classifies and designates them in accordance with the contractual terms, economic circumstances, and pertinent conditions as at the acquisition date.

Any contingent consideration to be transferred by the Group will be recognised at fair value at the acquisition date. A contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. A contingent consideration classified as an asset or liability is measured at fair value, with changes in fair value recognised in profit or loss.

Goodwill is initially recorded at cost, which equals the excess of cost of the business combination over the fair value of the net assets acquired. If the fair value of the net assets acquired exceeds the cost of the business combination, the excess is immediately recognised as a gain in profit or loss.

Goodwill is carried at cost less any accumulated impairment losses. Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

4.6 Property, plant and equipment and depreciation

Land is stated at cost. Buildings and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Depreciation of buildings and equipment is calculated by reference to their costs on the straight-line basis over the following estimated useful lives.

Land improvement	5 - 40 years
Buildings and construction	5 - 40 years
Facility systems	3 - 40 years
Medical accessory equipment	3 - 15 years
Hospital equipment	3 - 20 years
Equipment and furniture	3 - 20 years
Motor vehicles	5 - 10 years

Depreciation is included in determining income.

No depreciation is provided on land and assets under construction and installation.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in the income statement when the asset is derecognised.

4.7 Intangible assets

Intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses (if any).

Intangible assets with finite lives are amortised on the straight-line basis over the economic useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method of such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to the income statement.

A summary of the intangible assets with finite useful lives is as follows.

	<u>Useful lives</u>
Computer software	3 - 10 years

No amortisation is provided on computer software under installation.

4.8 Goodwill

Goodwill is initially recorded at cost, which equals to the excess of cost of business combination over the fair value of the net assets acquired. If the fair value of the net assets acquired exceeds the cost of business combination, the excess is immediately recognised as gain in the income statement.

Goodwill is carried at cost less any accumulated impairment losses (if any). Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the Company's cash generating units (or group of cash-generating units) that are expected to benefit from the synergies of the combination. The Company estimates the recoverable amount of each cash-generating unit (or group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognised in the income statement. Impairment losses relating to goodwill cannot be reversed in future periods.

4.9 Leases

At inception of contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as a lessee

The Group applied a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. At the commencement date of the lease (i.e. the date the underlying asset is available for use), the Group recognises right-of-use assets representing the right to use underlying assets and lease liabilities based on lease payments.

Right-of-use assets

Right-of-use assets are measured at cost, less accumulated depreciation, any accumulated impairment losses (if any), and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities initially recognised, initial direct costs incurred, and lease payments made at or before the commencement date of the lease less any lease incentives received.

Depreciation of right-of-use assets are calculated by reference to their costs, on the straight-line basis over the shorter of their estimated useful lives and the lease term.

Land and land improvement	3 years
Buildings and building improvement	2 - 6 years
Office equipment	5 years
Motor vehicles	3 - 5 years

If ownership of the leased asset is transferred to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Lease liabilities

Lease liabilities are measured at the present value of the lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be payable under residual value guarantees. Moreover, the lease payments include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

The Group discounted the present value of the lease payments by the interest rate implicit in the lease or the Group's incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

A lease that has a lease term less than or equal to 12 months from commencement date or a lease of low-value assets is recognised as expenses on a straight-line basis over the lease term.

The Group as a lessor

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset to a lessee. Lease receivables from operating leases is recognised as income in the income statement on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying assets and recognised as an expense over the lease term on the same basis as the lease income.

4.10 Related party transactions

Related parties comprise individuals or enterprises that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company.

They also include associates, and individuals or enterprises which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel, directors, and officers with authority in the planning and direction of the Company's operations.

4.11 Foreign currencies

The consolidated and separate financial statements are presented in Baht, which is the Company's functional currency. Items of each entity included in the consolidated financial statements are measured using the functional currency of that entity.

Transactions in foreign currencies are translated into Baht at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the exchange rate ruling at the end of reporting period.

Gains and losses on exchange are included in determining income.

4.12 Impairment of non-financial assets

At the end of each reporting period, the Group performs impairment reviews in respect of the property, plant and equipment, right-of-use assets and other intangible assets whenever events or changes in circumstances indicate that an asset may be impaired. The Group also carries out annual impairment reviews in respect of goodwill. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount. In determining value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by a valuation model that, based on information available, reflects the amount that the Group could obtain from the disposal of the asset in an arm's length transaction between knowledgeable, willing parties, after deducting the costs of disposal.

An impairment loss is recognised in the income statement.

In the assessment of asset impairment except for goodwill, if there is any indication that previously recognised impairment losses may no longer exist or may have decreased, the Group estimates the asset's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The increased carrying amount of the asset attributable to a reversal of an impairment loss shall not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the income statement.

4.13 Employee benefits

Short-term employee benefits

Salaries, wages, bonuses, paid annual leave and contributions to the social security fund are recognised as expenses when incurred.

Post-employment benefits and other long-term employee benefits

Defined contribution plans

The Group and its employees have jointly established a provident fund. The fund is monthly contributed by employees and by the Group. The fund's assets are held in a separate trust fund and the Group's contributions are recognised as expenses when incurred.

Defined benefit plans and other long-term employee benefits

The Group has obligations in respect of the severance payments they must make to employees upon retirement under labor law and other employee benefit plans. The Group treats these severance payment obligations as a defined benefit plan. In addition, the Group provides other long-term employee benefit plan, namely long service awards.

The obligation under the defined benefit plan and other long-term employee benefit plans is determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from defined benefit plans are recognised immediately in the statement of comprehensive income.

Actuarial gains and losses arising from other long-term benefits are recognised immediately in the income statement.

Past service costs are recognised in profit or loss on the earlier of the date of the plan amendment or curtailment and the date that the Group recognises restructuring-related costs.

4.14 Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

4.15 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Group recognises deferred tax liabilities for all taxable temporary differences while it recognises deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Group reviews and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Group records deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

4.16 Financial instruments

The Group initially measures financial assets at its fair value plus, in the case of financial assets that are not measured at fair value through profit or loss, transaction costs. However, trade receivables, that do not contain a significant financing component, are measured at the transaction price as disclosed in the accounting policy relating to revenue recognition.

Classification and measurement of financial assets

Financial assets are classified, at initial recognition, as to be subsequently measured at amortised cost, fair value through other comprehensive income (FVOCI) and fair value through profit or loss (FVTPL). The classification of financial assets at initial recognition is driven by the Group's business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

Financial assets at amortised cost

The Group measures financial assets at amortised cost if the financial asset is held in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognised in the income statement when the asset is derecognised, modified or impaired.

Financial assets at FVOCI (debt instruments)

The Group measures financial assets at FVOCI if the financial asset is held to collect contractual cash flows and to sell the financial asset and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income, foreign exchange revaluation and impairment losses or reversals are recognised in profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in other comprehensive income. Upon derecognition, the cumulative fair value change recognised in other comprehensive income is recycled to profit or loss.

Financial assets designated at FVOCI (equity instruments)

Upon initial recognition, the Group can elect to irrevocably classify its equity investments which are not held for trading as equity instruments designated at FVOCI. The classification is determined on an instrument-by-instrument basis.

Gains and losses recognised in other comprehensive income on these financial assets are never recycled to the income statement.

Dividends are recognised as other income in profit or loss, except when the dividends clearly represent a recovery of part of the cost of the financial asset, in which case, the gains are recognised in other comprehensive income.

Equity instruments designated at FVOCI are not subject to impairment assessment.

Financial assets at FVTPL

Financial assets measured at FVTPL are carried in the statement of financial position at fair value with net changes in fair value recognised in profit or loss.

These financial assets include derivatives, security investments held for trading, equity investments which the Group has not irrevocably elected to classify at FVOCI and financial assets with cash flows that are not solely payments of principal and interest.

Dividends on listed equity investments are recognised as other income in profit or loss.

Classification and measurement of financial liabilities

Except for derivative liabilities, at initial recognition the Group's financial liabilities are recognised at fair value net of transaction costs and classified as liabilities to be subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the income statement when the liabilities are derecognised as well as through the EIR amortisation process. In determining amortised cost, the Group takes into account any fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in the income statement.

Derecognition of financial instruments

A financial asset is primarily derecognised when the rights to receive cash flows from the asset have expired or have been transferred and either the Group has transferred substantially all the risks and rewards of the asset, or the Group has transferred control of the asset.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the income statement.

Impairment of financial assets

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date.

ECLs are calculated based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

4.17 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Group applies a quoted market price in an active market to measure its assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Group measures fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categories of input to be used in fair value measurement as follows.

Level 1 - Use of quoted market prices in an active market for such assets or liabilities

Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly

Level 3 - Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Group determines whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

5. Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows.

Consolidation of subsidiaries in which the Group holds less than half of shares

The management of the Group determined that the Group has control over Seoul Seniors Tower LLC (“SST”), even though the Group holds 41% of shares and voting rights, which is less than half of shares and voting rights. This is because the Group is a major shareholder of this company, exercises control over its management and has the ability to direct its significant activities of that company. As a result, SST is deemed to be a subsidiary of the Group and has to be included in the consolidated financial statements from the date on which the Group assumed control.

Leases

Determining the lease term with extension and termination options - The Group as a lessee

In determining the lease term, the management is required to exercise judgement in assessing whether the Group is reasonably certain to exercise the option to extend or terminate the lease considering all relevant facts and circumstances that create an economic incentive for the Group to exercise either the extension or termination option.

Estimating the incremental borrowing rate - The Group as a lessee

The Group cannot readily determine the interest rate implicit in the lease, therefore, the management is required to exercise judgement in estimating its incremental borrowing rate to discount lease liabilities. The incremental borrowing rate is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

Lease classification - The Group as lessor

In determining whether a lease is to be classified as an operating lease or finance lease, the management is required to exercise judgement as to whether significant risk and rewards of ownership of the leased asset has been transferred, taking into consideration terms and conditions of the arrangement.

Allowance for expected credit losses of trade receivables

In determining an allowance for expected credit losses of trade receivables, the management needs to make judgement and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the forecast economic condition for groupings of various customer segments with similar credit risks. The Group's historical credit loss experience and forecast economic conditions may also not be representative of whether a customer will actually default in the future.

Property, plant and equipment and depreciation

In determining depreciation of plant and equipment, the management is required to make estimates of the useful lives and residual values of the plant and equipment and to review estimate useful lives and residual values when there are any changes.

In addition, the management is required to review property, plant and equipment for impairment on a periodical basis and record impairment losses when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

Goodwill

The initial recognition and measurement of goodwill, and subsequent impairment testing, require management to make estimates of cash flows to be generated by the asset or the cash-generating units and to choose a suitable discount rate in order to calculate the present value of those cash flows.

Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

Post-employment benefits under defined benefit plans and other long-term employee benefits

The obligation under the defined benefit plan and other long-term employee benefit plans is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

Litigation

The Group has contingent liabilities as a result of litigation. The management has used judgement to assess of the results of the litigation and believes that provisions as recorded as at the financial statements date are adequate.

6. Related party transactions

During the years, Group had significant business transactions with related parties. Such transactions, which are summarised below, arose in the ordinary course of business and were concluded on commercial terms and bases agreed upon between the Company and those related parties.

(Unit: Million Baht)

	Consolidated		Separate		
	financial statements		financial statements		Pricing policy
	2025	2024	2025	2024	
Transactions with subsidiaries					
(eliminated from the consolidated financial statements)					
Medical service income	-	-	126.6	113.8	Market price

16. Goodwill

Goodwill resulted from the acquisition by Health Horizons Enterprises Pte. Ltd. ("HHE"), an overseas subsidiary that is 80% owned by the Company, of a 100% interest in the common shares of Bumrungrad Mongolia LLC ("BML") on 28 March 2014. BML holds 51% of the common shares of Seoul Seniors Tower LLC ("SST"), which operates Ulaanbaatar Songdo Hospital in Mongolia. The excess of the purchase price over the net value of the tangible assets acquired was allocated as goodwill. The amount of goodwill is USD 3.4 million, which mainly comprises the value of expected synergies from customer base expansion.

The change in the goodwill account is due to the impact of exchange differences on translation of the foreign operation's financial statements.

17. Trade and other current payables

Decrease on termination of leases	(35,606)	-	(35,606)	-
Balance at end of year	83,929	115,163	98,605	129,548

c) Expenses relating to leases that are recognised in income statements

	(Unit: Thousand Baht)			
	Consolidated financial statements		Separate financial statements	
	2025	2024	2025	2024
Depreciation expense of right-of-use assets	30,529	35,998	36,507	42,288
Interest expense on lease liabilities	6,470	8,068	7,842	8,125
Expense relating to short-term leases	8,442	9,060	-	-
Expense relating to leases of low-value assets	11,448	12,496	8,233	10,625
Expense relating to variable lease payments that do not depend on an index or a rate	65,158	64,163	65,158	64,163

The Company has lease commitment for building space with a company for a period of 6 years. Under the terms of the agreement, the Company agrees to pay a rental fee at a rate based on the revenues and other information.

d) Others

The Group had total cash outflows for leases for the year ended 31 December 2025 of Baht 123 million (2024: Baht 124 million) (the Company only: Baht 118 million, 2024: Baht 120 million), including the cash outflow related to short-term lease, leases of low-value assets and variable lease payments that do not depend on an index or a rate.

19. Long-term loan and interest payable to an unrelated party

Long-term loan was a loan which Bumrungrad Myanmar Co., Ltd., a subsidiary, entered into a loan agreement with other shareholder in USD and due at call. The loan carries interest at the 1-year fixed deposit rate of a local commercial bank but not over 3.25% per annum. Interest is due annually. The other shareholder does not plan to call the loan in the near future, it is therefore classified as a long-term loan.

During the years ended 31 December 2025 and 2024, movements of long-term loan and interest payable to an unrelated party were as follows.

	(Unit: Thousand Baht)			
	Consolidated financial statements			
	Balance as at 1 January 2025	During the year		Balance as at 31 December 2025
		Increase	Decrease	
Principal	23,099	-	-	23,099
Interest payable	1,637	153	-	1,790

Provision for employee benefits						
at end of year	<u>1,015,640</u>	<u>836,010</u>	<u>45,592</u>	<u>40,477</u>	<u>1,061,232</u>	<u>876,487</u>

The Group expects to pay Baht 46 million (2024: Baht 48 million) (the Company only: Baht 44 million, 2024: Baht 47 million) of long-term employee benefits during the next year.

As at 31 December 2025, the weighted average duration of the liabilities for long-term employee benefit is 12 - 24 years (2024: 13 - 23 years) (the Company only: 18 years, 2024: 18 years).

Key actuarial assumptions used for the valuation are as follows.

(Unit: Percent per annum)

	Consolidated		Separate	
	financial statements		financial statements	
	2025	2024	2025	2024
Discount rate	1.4 - 1.8	2.3 - 2.4	1.6	2.3
Salary increase rate	3.5	3.5	3.5	3.5
Turnover rate	0.0 - 20.0	0.0 - 24.0	0.0 - 19.0	0.0 - 18.0

The results of sensitivity analysis for significant assumptions that affect the present value of the long-term employee benefit obligations as at 31 December 2025 and 2024 are summarised below.

(Unit: Million Baht)

	As at 31 December 2025

Salary increase rate	81	(72)	77	(68)
Turnover rate	(85)	44	(81)	42

(Unit: Million Baht)

	As at 31 December 2024			
	Consolidated financial statements		Separate financial statements	
	1% increase	1% decrease	1% increase	1% decrease
Discount rate	(71)	82	(68)	78
Salary increase rate	68	(61)	65	(58)
Turnover rate	(71)	36	(68)	35

22. Convertible bonds treated as equity securities

Convertible bonds treated as equity securities are as follows.

- a) Partly secured convertible bonds in an amount of Baht 300 million (the outstanding amount as at 31 December 2025 and 2024 were Baht 300 million), with a maturity of 12 years, and a coupon rate of 2.5% p.a. for years 1 - 4, 5% p.a. for years 5 - 8, and 10% p.a. for years 9 - 12, which the interest was payable semi-annually. The current conversion price is Baht 4.55 per one ordinary share. The bondholders have the option to convert the bonds into ordinary shares throughout the life of the bonds. The bonds were secured by the mortgage of the Company's land. On 23 August 2012, the Company released the mortgage of the land.
- b) Partly secured convertible bonds in an amount of Baht 250 million (the outstanding amount as at 31 December 2025 and 2024 were Baht 20 million), with a maturity of 12 years, and a coupon rate of 1% p.a., which the interest was payable semi-annually. The current conversion price is Baht 3.50 per one ordinary share. The bondholders have the option to convert the bonds into ordinary shares throughout the life of the bonds. The bonds were secured by the mortgage of the Company's land. On 23 August 2012, the Company released the mortgage of the land.

On 22 November 2000, the meeting of the bonds' holders and on 24 November 2000, an extraordinary meeting of the Company's shareholders passed approval of the amendment to the terms and conditions governing the rights and obligations of the issuer and the bondholders, which gives the Company the option to either redeem the convertible bonds or to convert the bonds into ordinary shares on the maturity date.

On 6 December 2011, the meeting of bonds' holders and on 8 December 2011, an extraordinary meeting of the Company's shareholders passed approval of the amendment to the terms and conditions governing the rights and obligations of the issuer and the bondholders, which to extend the tenure of the convertible bonds for additional 5 years maturing on 23 August 2017 and that the security of the convertible bonds be released in accordance with the same term on 23 August 2012.

On 9 November 2015, the meeting of bonds' holders and on 30 November 2015, an extraordinary meeting of the Company's shareholders passed approval of the amendment to the terms and conditions governing the rights and obligations of the issuer and the bondholders, which to extend the tenure of the convertible bonds for additional 10 years maturing on 23 August 2027 and to cancel the appointment of a bondholders' representative since the collateral for the convertible bonds has already been released. In addition, it is proposed that the name of the BH Convertible Bonds Series#1 and Series#2 be changed to reflect the new maturity date and the release of the collateral for the bonds.

According to the Thai Accounting Standard No. 32 "Financial Instruments: Presentation", because the Company has the option to either redeem the convertible bonds or to convert them into ordinary shares on the maturity date, and delivery of equity securities will not be changed by fair value of such equity securities (since the Company determined a certain conversion price), so the convertible bonds are not covered by the definition of financial liabilities and are to be treated as equity securities. In addition, the Company's management expresses their intention to convert these bonds into ordinary shares on the maturity date. Therefore, the whole amounts of the convertible bonds are presented as part of shareholders' equity and future interest on the bonds will be recorded as a deduction from shareholders' equity.

In the first quarter of 2020, the holders of BH Convertible Bonds Series#2 Due 2027 ("BH Convertible Bonds Series#2") exercised rights to convert 23 bonds of Baht 10 million per unit, or a total of Baht 230 million. At a conversion price of Baht 3.50 per ordinary share this was equivalent to 65,714,285 ordinary shares with a par value of Baht 1 each.

In 2000, the Company increased its registered share capital and set aside ordinary shares to accommodate the exercise of BH Convertible Bonds Series#1 and Series#2. After the exercise of conversion rights, the Company has 71,714,285 ordinary shares with a par value of Baht 1 per share remaining to accommodate the conversion of the bonds.

Interest expense for the year 2025 of the convertible bonds amounted to Baht 30 million (2024: Baht 30 million), was recorded as a reduction to unappropriated retained earnings.

23. Share capital

Preference shareholders have the same right as the ordinary shareholders except that they are entitled to receive an annual dividend at 15% of preference shares capital prior to the dividend paid to the ordinary shareholders. Preference shares can be converted into ordinary shares.

During the first quarter of 2024, 30,000 preference shares were converted into ordinary shares at ratio of 1 preference share to 1 ordinary share, as a result, the Company's ordinary shares increased from 794,885,942 shares with a par value of Baht 1 each to 794,915,942 shares with a par value of Baht 1 each. The Company registered this conversion with the Ministry of Commerce on 7 March 2024.

During the first quarter of 2025, 48,350 preference shares were converted into ordinary shares at ratio of 1 preference share to 1 ordinary share, as a result, the Company's ordinary shares increased from 794,915,942 shares with a par value of Baht 1 each to 794,964,292 shares with a par value of Baht 1 each. The Company registered this conversion with the Ministry of Commerce on 11 March 2025.

24. Statutory reserve

Pursuant to Section 116 of the Public Limited Companies Act B.E. 2535, the Company is required to set aside to a statutory reserve at least 5% of its net profit after deducting accumulated deficit brought forward (if any), until the reserve reaches 10% of the registered capital. The statutory reserve is not available for dividend distribution. At present, the statutory reserve has fully been set aside.

25. Expenses by nature

Significant expenses classified by nature are as follows.

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2025	2024	2025	2024
Salaries, wages and other employee benefits	4,053,599	4,015,583	3,685,743	3,670,381
Physicians' fee	4,810,648	5,038,424	4,686,654	4,873,692
Depreciation	964,343	963,231	918,018	917,663
Amortisation	103,172	114,005	101,404	112,623
Property, plant and equipment rental expenses from leases	85,048	85,719	73,391	74,788
Building and equipment maintenance expenses	255,186	272,066	248,153	258,578
Advertising and public relation expenses	455,509	537,595	423,578	500,917
Medicine, medical supply and other supply consumptions	3,527,111	3,597,551	3,302,284	3,324,202

26. Income tax

Income tax expenses for the years ended 31 December 2025 and 2024 are made up as follows.

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2025	2024	2025	2024
Current income tax:				
Current income tax for the year	1,724,082	1,614,006	1,609,242	1,493,833
Adjustment in respect of income tax of previous year	18,989	-	18,989	-
Deferred tax:				
Relating to origination and reversal of temporary differences	(5,792)	(10,016)	(5,263)	(7,396)
Income tax expenses reported in profit or loss	1,737,279	1,603,990	1,622,968	1,486,437

The amounts of income tax relating to each component of other comprehensive income for the years ended 31 December 2025 and 2024 are as follows.

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2025	2024	2025	2024
Deferred tax on gain from the change in value of financial assets measured at FVOCI	(5,496)	(2,826)	(5,496)	(2,826)
Remeasurement loss (gain) on defined benefit plans	23,068	(6,082)	22,627	(6,097)
Total	17,572	(8,908)	17,131	(8,923)

The reconciliation between accounting profit and income tax expenses is shown below.

	(Unit: Thousand Baht)			
	Consolidated		Separate

31 December 2028	1	1
31 December 2029	2	6
31 December 2030	2	-
	81	86

27. Promotional privileges

The Company has received promotional privileges from the Board of Investment for the medical laboratories service, pursuant to the investment promotion certificate No. 65-0474-1-00-2-0 issued on 26 April 2022. Subject to certain conditions imposed, the Company has received privileges as follows:

1. Exemption of import duty on machinery as approved by the board.
2. Exemption from corporate income tax derived from the promoted operation, with for period of 8 years from the date the promoted operations begin generating revenues (7 July 2022).
3. In case of losses being incurred during the corporate income tax exemption period, the Company is allowed to utilise the loss as a deduction against net profits for a period of 5 years after exemption period, which it can choose to deduct from the net profit of any year or several years.
4. Exemption from corporate income tax on dividend paid from the profit of the promoted operation throughout the tax exemption period.

The Company must comply with the conditions stipulated in the investment promotional privileges.

In addition, the Company has received promotional privileges from the Board of Investment for the hospital operations, pursuant to the investment promotion certificate No. 67-1920-2-37-1-0 issued on 10 September 2024. Subject to certain conditions imposed, the Company has received privileges as follows:

1. Exemption from corporate income tax derived from the promoted operation in the proportion of 200% of the investment made in supporting local public health organisations, excluding the cost of land and working capital, with for period of 3 years from the date of generating revenues after receiving the promotion privileges (11 September 2024). In the year 2024, the Company received a corporate income tax exemption amounting to Baht 294 million.
2. In case of losses being incurred during the corporate income tax exemption period, the Company is allowed to utilise the loss as a deduction against net profits for a period of 5 years after exemption period, which it can choose to deduct from the net profit of any year or several years.
3. Exemption from corporate income tax on dividend paid from the profit of the promoted operation throughout the tax exemption period.

The Company must comply with the conditions stipulated in the investment promotional privileges.

Subsequently, on 14 January 2025, the Board of Investment passed a resolution to approve an amendment of tax privileges. The exemption of corporate income tax derived from the promoted operation previously in the proportion of 200% was revised to the proportion of 120% and 200% of the investment made in supporting local public health organisations, excluding the cost of land and working capital, with for period of 3 years from the date of generating revenues after receiving the promotion privileges. In the year 2025, the Company received a corporate income tax exemption amounting to Baht 59 million. (2024: Baht 275 million).

The Company's operating revenues for the years ended 31 December 2025 and 2024, divided between promoted and non-promoted operations, are summarised below.

	(Unit: Thousand Baht)					
	Promoted operations		Non-promoted operations		Total	
	2025	2024	2025	2024	2025	2024
Revenues from

28. Earnings per share

Basic earnings per share is calculated by dividing profit for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year.

Diluted earnings per share is calculated by dividing profit for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year plus the weighted average number of ordinary shares which would need to be issued to convert all dilutive potential ordinary shares into ordinary shares. The calculation assumes that the conversion took place either at the beginning of the year or on the date the potential ordinary shares were issued.

The following tables set forth the computation of basic and diluted earnings per share.

Consolidated financial statements						
Profit for the year		Weighted average number of ordinary shares		Earnings per share		
2025	2024	2025	2024	2025	2024

29. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance.

The Group has only one main reportable operating segment, which is the hospital and health care center business, and the major geographical area of its operations is Thailand, with its overseas operations not being material. Segment performance is measured based on operating profit or loss, on a basis consistent with that used to measure operating profit or loss in the financial statements. As a result, all of the revenues, operating profits and assets as reflected in these financial statements pertain exclusively to the aforementioned reportable operating segment and geographical area.

For the year 2025, the Group has revenue from one major customer in amount of Baht 3,813 million, arising from hospital and healthcare center business segment (2024: Baht 3,930 million derived from one major customer, arising from sales by hospital and healthcare center business segment).

30. Provident fund

The Group and its employees have jointly established a provident fund in accordance with the Provident Fund Act B.E. 2530. Employees contributed to the fund monthly at the rate of 5% and 15% of their basic salaries and the Group contributed 5% and 7% of basic salary. The fund, which is managed by Bangkok Capital Asset Management Company Limited, will be paid to employees upon termination in accordance with the fund rules. The contributions for the year 2025 amounting to Baht 86 million (2024: Baht 87 million) (the Company only: Baht 82 million, 2024: Baht 83 million), were recognised as expenses.

31. Dividends paid

Dividend	Approved by	Dividend paid (Thousand Baht)	Dividend per share (Baht)
Final dividend for 2024	Annual General Meeting of the shareholders on 23 April 2025	2,387,164	3.00
Interim dividend from operations from 1 January 2025 to 30 June 2025	Board of Director's meeting on 30 July 2025	1,591,376	2.00
Total dividends for 2025		<u>3,978,540</u>	
Final dividend for 2023	Annual General Meeting of the shareholders on 24 April 2024	2,505,623	3.15
Interim dividend from operations from 1 January 2024 to 30 June 2024	Board of Director's meeting on 7 August 2024	1,591,069	2.00
Total dividends for 2024		<u>4,096,692</u>	

32. Commitments and contingent liabilities

32.1 Capital commitments

As at 31 December 2025 and 2024, the Group had capital commitments as below.

Details of commitments	(Unit: Million Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2025	2024	2025	2024
1) Construction, design and renovation of buildings	1,922	865	883	827
2) Purchase of medical instruments and hospital equipment	247	471	228	431
3) Purchase of computer software	103	92	102	91

32.2 Long-term service commitments

As at 31 December 2025 and 2024, the Group has entered into long-term service agreements. The terms of the agreements are generally between 1 and 5 years.

Future minimum payments required under these agreements were as follows.

Details of commitments	(Unit: Million Baht)	
	Consolidated/Separate	
	financial statements	
	2025	2024
1) Medical instruments and hospital equipment maintenance	123	103
2) Computer system maintenance	49	76

32.3 Uncalled portion of investments in subsidiaries

As at 31 December 2025, the Company has commitment in respect of the uncalled portion of investments in the subsidiaries below.

- a) Investment in a subsidiary in Thailand (Bumrungrad International Hospital Phuket Co., Ltd.) of Baht 850 million (2024: Baht 600 million).
- b) Investment in a subsidiary in Thailand (Bumrungrad Health Network Co., Ltd.) of Baht 100 million (2024: None).

32.4 Bank guarantees

As at 31 December 2025, there were outstanding bank guarantees of Baht 34 million (2024: Baht 35 million) issued by banks on behalf of the Company. All were required in the normal course of business e.g. payment of utility expenses and space rental.

33. Financial instruments

33.1 Derivative

Derivative not designated as hedging instrument

The Group uses foreign exchange forward contracts to manage some of its transaction exposures. The contract is entered into for periods consistent with foreign currency exposure of the underlying transactions, generally from 3 months.

33.2 Financial risk management objectives and policies

The Group's financial instruments principally comprise cash and cash equivalents, trade accounts receivable, long-term loans to related parties, investments and long-term loan from unrelated party. The financial risks associated with these financial instruments and how they are managed is described below.

Credit risk

The Group is exposed to credit risk primarily with respect to trade accounts receivable, loans, deposits with banks and financial institutions and other financial instruments. The maximum exposure to credit risk is limited to the carrying amounts as stated in the statement of financial position.

Trade accounts receivable

The Group manages the risk by adopting appropriate credit control policies and procedures and therefore does not expect to incur material financial losses. Outstanding trade accounts receivable are regularly monitored, and the Group does not have high concentrations of credit risk since it has a large and diverse customer base.

An impairment analysis is performed at each reporting date to measure expected credit losses. The Group classifies trade accounts receivable segments by similar credit risks and calculates expected credit losses by consideration the outstanding debts aging of each segment, the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade accounts receivable is written-off if past due for more than two years and may consider legal action against such debtor. In addition, the Group will write-off the trade accounts receivable when it has been taken an action in accordance with the Revenue Code, the Write-Off of Bad Debts from Debtor Accounts.

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Group's management in accordance with the Group's policy. Investments are made only with approved counterparties. The Group's policy is reviewed by the Group's Board of Directors, and may be updated throughout the year subject to approval of the Group's Executive Committee. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through a counterparty's potential failure to make payments.

The credit risk on debt instruments is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

Market risk

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to foreign currency risk arises from cash deposit, investments in subsidiaries and loans those are denominated in foreign currencies. The Group seeks to reduce this risk by entering into foreign exchange forward contracts when it considers appropriate. Generally, the forward contracts mature within 3 months.

The Group has no significant balances of financial assets and liabilities denominated in foreign currencies as at 31 December 2025 and 2024.

Interest rate risk

The Group's exposure to interest rate risk relates primarily to its cash deposit and cash equivalents, other financial assets, long-term loans to related parties and long-term loan from unrelated party. Most of the Group's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate.

As at 31 December 2025 and 2024, significant financial assets and liabilities classified by type of interest rate are summarised in the table below, with those financial assets and liabilities that carry fixed interest rates further classified based on the maturity date, or the repricing date if this occurs before the maturity date.

(Unit: Million Baht)

Consolidated financial statements							
As at 31 December 2025							
	Fixed interest rates			Floating interest rate	Non-interest bearing	Total	Effective interest rate (% per annum)
	Within 1 year	1 - 5 years	Over 5 years				
Financial assets							
Cash and cash equivalents	3,021	-	-	4,399	175	7,595	0.05 - 1.38
Trade and other current receivables	-	-	-	-	4,291	4,291	-

Accrued expenses	-	-	-	-	941	941	-
	-	-	-	-	2,990	2,990	

In addition, as at 31 December 2025, the Group's exposures to fixed interest rate risk relate to convertible bonds treated as equity securities amounting to Baht 320 million (2024: Baht 320 million) with maturity date in 2027 and carry interests at the rates 1% and 10% per annum, as described in Note 22 to the financial statements.

The Group analyses interest rate sensitivity and considers that there is no significant effect on profit before tax arising from a reasonably possible change in interest rates of financial assets and financial liabilities bearing interest rate as at 31 December 2025 and 2024 since most of these bear fixed interest rates.

Liquidity risk

As at 31 December 2025 and 2024, most of the Group's liabilities, which will mature within one year, relate to trade and other current payables, accrued physicians' fees, accrued expenses and lease liabilities. The Group has assessed its ability to repay existing liabilities and concluded the risk is low. Furthermore, the Group has access to a sufficient variety of sources of funding.

33.2 Fair values of financial instruments

Since the majority of the Group's financial instruments are short-term in nature or carrying interest at rates close to the market interest rates, their fair value is not expected to be materially different from the amounts presented in the statement of financial position.

The methods and assumptions used by the Group in estimating the fair value of financial instruments are as follows.

- a) For financial assets and liabilities which have short-term maturities, including cash and cash equivalents, trade and other current receivables, trade and other current payable, accrued physicians' fees and accrued expenses, the carrying amounts at the statement of financial position approximate fair value.
- b) The fair value of debt securities is generally derived from quoted market prices or by using the yield curve announced by the Thai Bond Market Association or by other relevant bodies.
- c) The fair value of long-term loans is estimated by discounting expected future cash flows by the current market interest rate of lends with similar terms and conditions.
- d) The fair value of investment in equity instruments of non-listed companies has been determined by analysis and considering changes in the invested companies' financial position and operating performance, including other several factors, and concluded that the cost of those investments has appropriately represented the fair value of the investments.
- e) The carrying amounts of long-term loans carrying interest at rates approximating the market rate, in the statement of financial position approximates their fair value.

34. Fair value hierarchy

As at 31 December 2025 and 2024, the Group had assets that were measured at fair value or for which fair value was disclosed using a level of inputs as follows.

	(Unit: Million Baht)			
	Consolidated financial statements			
	As at 31 December 2025			
	Level 1	Level 2	Level 3	Total
Assets measured at fair value				
Financial assets measured at FVTPL				
- Debt investments	-	1,234	71	1,305
Financial assets measured at FVOCI				
- Debt investments	-	2,608	-	2,608
Assets for which fair value are disclosed				
Finance assets measured at amortised cost				
- Debt investments	-	4,620	-	4,620

	(Unit: Million Baht)

- Debt investments	-	2,564	-	2,564

35. Capital management

The primary objective of the Group's capital management is to ensure that it has appropriate capital structure in order to support its business and maximise shareholder value. As at 31 December 2025, the Group's debt-to-equity ratio was 0.17:1 (2024: 0.17:1) and the Company's was 0.16:1 (2024: 0.17:1).

36. Events after the reporting period

- a) On 6 February 2026, the Board of Directors Meeting of Bumrungrad International Hospital Phuket Co., Ltd., passed a resolution to call for the remaining unpaid initial share capital of Baht 100 million, or representing 10% of its initial registered share capital and to call for the remaining unpaid increased share capital of Baht 750 million, or representing 75% of the increased registered share capital. The Company has fully paid for such investment.

- b) On 18 February 2026, a meeting of the Company's Board of Directors passed a resolution to propose to the Annual General Meeting of shareholders to be held in April 2026 to adopt a resolution to pay a dividend of Baht 11 per share or a total of Baht 8,753 million, to the shareholders in respect of the 2025 profit and the retained earnings. The Company has already paid Baht 2 per share or Baht 1,591 million as an interim dividend on 29 August 2025. The remaining Baht 9 per share is divided between year-end dividend of Baht 3 per share and Baht 6 per share will be treated as a special dividend. This remaining Baht 9 per share dividend, or a total of Baht 7,162 million will be paid and recorded after it is approved by the Annual General Meeting of the Company's shareholders.

37. Approval of financial statements

These financial statements were authorised for issue by the Company's Board of Directors on 18 February 2026.
