Business Plan

AIS has established the following strategic operational framework:

1. Growing Core & Intelligent Digital Infrastructure AIS is committed to delivering superior services to individual, household, and enterprise customers through three businesses

- **Mobile Services:** Accelerating 5G adoption with digital value-added services, offers services to individual usage behaviors
- **Fixed Broadband Services:** Enhances customer experience by integrating digital solutions with smart home technologies, cloud, and AI, together with in-home entertainment services
- **Enterprise Solutions:** Drives Thailand's digital economy by delivering comprehensive digital solutions for enterprises.

2. Expanding Growth Platform AIS is building on core businesses with access to over 50 million customers. The key growth areas include, Retail and Distribution, Entertainment, and Digital finance

3. Building ecosystem AIS has developed a points and privileges ecosystem in collaboration with business partners

4. Enhancing Operational Excellence AIS focused on enhancing operational efficiency, delivering superior customer experiences, and maintaining cost competitiveness through the development of three key foundation, Network, IT, and AI

5. People and Culture AIS is committed to developing the capabilities of its workforce by strengthening skills, technological expertise, and digital leadership

Sustainable Development Plan

AIS is committed to operating business in line with a sustainable development approach. We strive to "Thriving in a Greener and Inclusive Digital World" under the sustainable development strategy comprising three dimensions; Drive Digital Economy, Promote Digital Inclusion, and Act on Climate. We consider all relevant stakeholders as well as respect for human rights, takes care of safety and occupational health. For further information, please visit [our website](#).

Business Highlight

Mobile: With over 35 years as Thailand's leading telecommunications service provider, AIS continues to uphold leadership in mobile services, supported by 5G coverage reaching more than 95% of the Thai population and 5G user base at 18.5 million subscribers.

FBB: AIS 3BB Fibre 3 delivers high-speed home broadband services, covering 20 million households across all 77 provinces nationwide, with a customer base of more than 5.3 million households.

Enterprise: AIS Business provides Connectivity, Cloud, Cyber Security, IoT, ICT, and Data Centers to corporate clients in collaboration with multiple partners.

SIM and Device Sales: AIS has diverse distribution channels covering various customer segments, such as: 89 AIS Shops and 1,421 authorized dealers.

Performance and Analysis

Business Performance Summary

For 1Q26, **Core service revenue** recorded at Bt44,849mn, an increase of 7% YoY driven by sustained momentum of connectivity demand across mobile and broadband. **Total revenue** was Bt58,197mn, increased 3.4% YoY.

Cost of service recorded at Bt21,216mn, decreased -13% YoY, mainly from lower network OPEX and reduced depreciation.

SG&A expenses recorded at Bt7,209mn, slightly increased 10% YoY from higher administrative costs to support business expansion and increased marketing expenses.

EBITDA recorded at Bt32,194mn, increased 7.1% YoY supported by core service revenue growth and disciplined cost management.

The reported net profit was at Bt13,496mn, growing 28% YoY due to strong operating performance, lower network costs, and reduced depreciation and amortization.

Key Milestones

Launches "AIS 5G-ADVANCED," the first in Southeast Asia

AIS elevates its 5G network to a new standard of intelligent connectivity by combining multiple frequency bands, which enhances network speed and efficiency, as well as improving security and user experience.

First issuance and offering of US dollar-denominated bonds

On March 4, 2026, AIS successfully issued and offered bonds totaling USD 1,000 million (approximately THB 31,000 million). The Company has entered into cross-currency swaps to convert obligations into Thai Baht. The proceeds are allocated for general corporate purposes.

Risk Management Policy

AIS has established an Enterprise Risk Management Policy and Framework applicable to the corporate and operational levels in order to manage and maintain risks at an acceptable level (Risk Appetite). The AIS Enterprise Risk Management framework and process are aligned with the integrated framework of the COSO ERM 2017: Enterprise Risk Management Integrating with Strategy and Performance.

However, AIS has also fully considered different significant business risks in line with its risk management guidelines, namely Strategic Risk (S), Operational Risk (O), Financial Risk (F), Compliance Risk (C), Emerging Risk, Fraud and Corruption Risk.

Recent Awards and Recognitions

- Received 3 "Outstanding CEO-CFO-IR" awards from the IAA Award 2025.
- Received "Outstanding IR" Awards from SET Awards 2025.
- Received a rating of AA in the MSCI ESG Ratings
