Independent auditor's report on Review of Interim Financial Information

To the Board of Directors of Advanced Info Service Public Company Limited

I have reviewed the accompanying consolidated and separate statements of financial position of Advanced Info Service Public Company Limited and its subsidiaries, and of Advanced Info Service Public Company Limited, respectively, as at 31 March 2026; the consolidated and separate statements of income, comprehensive income, changes in equity and cash flows for the three-month period ended 31 March 2026; and condensed notes ("interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34, "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of Review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34, "Interim Financial Reporting".

16. SIGNIFICANT EVENTS, COMMERCIAL DISPUTES AND LITIGATIONS

The Company

1) 900 MHz subscribers migration to 3G 2100 MHz

On September 25, 2014, the National Telecom Public Company Limited (“NT”) submitted a dispute under Black case No. 80/2557 to the Arbitration Institute, demanding the Company to pay compensation for a breach in the Concession Agreement between the Company and NT, regarding the Company porting its 900 MHz subscribers to the 3G 2100 MHz system provided by its subsidiary. The compensation claimed was Baht 9,126 million bearing interest of 7.5% per annum from September 25, 2014 until the full amount is paid.

On March 29, 2016, NT submitted a revision to amend the compensation amount for the period from May 2013 to September 2015, the end date of operation agreement, to Baht 32,813 million plus VAT and interest at 1.25% per month from June 2013 until the full amount is paid.

On February 14, 2019, the Arbitral Tribunal dismissed the said dispute by giving the reason which the Company was not in breach of the Agreement.

On May 15, 2019, NT submitted Black case No.951/2562 to the Central Administrative Court to revoke the arbitrament.

On September 22, 2023, the Central Administrative Court dismissed NT's request to revoke the arbitration award.

On October 18, 2023, NT appealed the judgment by the Central Administrative Court to the Supreme Administrative Court Black case No.Or.2102/2566. The case is currently under the consideration of the Supreme Administrative Court.

The Company’s management believes that the outcome of the dispute should be settled favourably and should not have a considerable impact on the financial statements of the Company.

2) The claim for additional revenue from the 6th and 7th Amendments to the Agreement for operations (“the Agreement”)

On September 30, 2015, the Company submitted the dispute Black case No. 78/2558 to the Arbitration Institute, Court of Justice to decide regarding the 6th Amendment dated May 15, 2001 and the 7th Amendment dated September 20, 2002 to the Agreement for operations to conduct business of Cellular Mobile Telephone that the amendments bind the Company and National Telecom Public Company Limited (“NT”) to comply with the amendments until the expiration of the Agreement for operations and the Company has no obligation to pay for the additional revenue according to the letter claimed by NT to the Company on September 29, 2015 regarding to request the payment of additional revenue in the amount of Baht 72,036 million which NT has claimed that the 6th and 7th Amendments were material which caused NT to receive lower revenue than the rate as specified in the Agreement for operations.

On November 30, 2015, NT submitted a dispute under Black case No.122/2558 to the Arbitration Institute to decrease the claimed amount to Baht 62,774 million, according to the percentage of adjustment to revenue sharing. This case is the same as the dispute under Black case No. 78/2558, so the Arbitration Committee tried these cases together.

The Company received the arbitrament from the Arbitration Committee dated January 23, 2020, with a majority vote ordering the Company to pay additional remuneration of Baht 31,076 million at an interest rate of 1.25% per month to NT from the day after November 30, 2015, until the full amount is paid.

The Company disagreed with the decision, and on April 22, 2020, the Company filed a request for revocation of the award to the Central Administrative Court (Black case No. 1165/2563).

On April 23, 2020, NT requested the revocation of the decision made by the Arbitration Committee to the Central Administrative Court that NT's claim of Baht 31,698 million related to after the claim period (Black case No. 1171/2563).

On July 26, 2022, the Central Administrative Court decided to revoke the Arbitration Committee's verdict because the 6th and 7th Amendments of the Agreement still have a binding effect on the parties. Therefore, the Company does not have to pay for the additional revenue as claimed by NT.

On August 24, 2022, NT appealed the judgment by the Central Administrative Court to the Supreme Administrative Court. The case is currently under the consideration of the Central Administrative Court.

Accordingly, the dispute has not yet been finalised, but the Company's management considers that the ultimate resolution of the above dispute should not have a considerable impact on the financial statements of the Company.

- 3) The Company submitted a claim to the Central Administrative Court for revocation of the National Telecommunication Commission order regarding revenue incurred from the temporary service for 900 MHz customer protection period after the Concession end

On May 1, 2017, the Company filed a lawsuit against the office of the National Broadcasting and Telecommunication Committee (“NBTC office”), the National Telecommunication Committee (“NTC”), the National Broadcasting and Telecommunication Committee (“NBTC”) and 5 other persons to the Central Administrative Court under Black case No. 736/2560 to revoke the NBTC office's letter and resolution which ordered the Company to pay revenue during the subscriber protection period after the expiration of the Concession agreement from October 1, 2015, to June 30, 2016, amounting to Baht 7,221 million plus interest.

On June 15, 2017, the Company received an indictment dated April 21, 2017, in which the NBTC and the NBTC office filed a lawsuit, under Black case No. 661/2560, against the Company for the same amount to the Central Administration Court, ordering the Company to pay revenue during the customer protection period.

On June 12, 2020, the Central Administrative Court revoked the NBTC's order on the grounds that during the 900 MHz's customer protection period, the Company's expenses incurred from the service exceeded the revenues generated.

On July 8, 2020 and July 17, 2020, the NBTC and the NBTC office appealed to the Supreme Administrative Court. The case is currently under the consideration of the Supreme Administrative Court.

The Company's management has considered that the Company has complied with NBTC announcement regarding the Temporary Customer Protection Plan Following the Expiration of the Agreement for operations (“Telecommunication Service Agreement”) and the Company was obliged to submit the revenue after deducting any expenses to NBTC office but the Company's expenses incurred from the service was greater than the revenue. Therefore, the Company has no remaining revenue to submit to NBTC Office as stipulated in the announcement.

4) Claim for the additional revenue sharing from the rental charge for providing transmission services

National Telecom Public Company Limited (“NT”) submitted dispute No. A1/2018 dated January 12, 2018, to the Arbitration Institute, demanding the Company pay for the additional revenue sharing from the rental charges of the transmission system from October 2012 to September 2015, totalling Baht 1,121.92 million (including VAT), plus the default interest rate of 1.25% per month. According to NT's views, the Company has to collect the rental charges of the transmission system at the rate specified by NT, which is higher than the rate that the Company charged to the tenant.

On December 19, 2022, the Company received the award by the Arbitration Committee to revoke NT's dispute claims under the reason that such claims regarding the rental charges of the transmission system were disputes in relation to the compliance with the NBTC's notification and not the disputes in relation to the Concession Agreement.

On March 16, 2023, NT submitted the request to revoke the Arbitration Committee's award to the Central Administrative Court as the Black Case No. 516/2566. The case is currently under the consideration of the Central Administrative Court.

The Company's management believes that the Company has correctly complied with the relating conditions of the Agreement in all respects, therefore the outcome of the dispute should not materially impact the financial statements of the Company.

5) Claim for the usage of colocation, site facilities and related equipment rental for assets provided during the temporary customer protection period after the Cellular Mobile Telephone Concession ended

On February 15, 2018, the National Telecom Public Company Limited (“NT”) submitted dispute No. A3/2018 to the Arbitration Institute, Ministry of Justice by Thailand Arbitration Center (“THAC”) to claim for usage fees for colocation, site facilities and related equipment rental for assets under Cellular Mobile Telephone Concession during the temporary customer protection period after the Concession ended. The claim amounted to Baht 183.44 million (included VAT) plus the default interest rate of 1.25% per month.

On April 5, 2018, the Company submitted a dispute under Black case No. Kor.3/2561 to the Central Administrative Court to revoke the THAC's order for consideration for dispute No. A3/2018.

On April 25, 2018, the Central Administrative Court dismissed Black case No. Kor.3/2561.

Subsequently, on May 21, 2018, the Company appealed the dismissal of Black case No. Kor.3/2561.

On October 29, 2019, NT filed a petition to the Central Administrative Court to withdraw the dispute from THAC.

On February 13, 2020, the Arbitration Committee allowed NT to submit a petition to dismiss the above dispute.

On October 24, 2025, the Company submitted an appeal to the Supreme Administrative Court. The case is currently under the consideration of the Supreme Administrative Court.

The Company's management believes that the Company has correctly complied with the relating conditions of the Agreement and the announcement of the National Broadcasting and Telecommunication Committee in all respects, so the outcome of the dispute should be settled favourably and will not materially impact on the financial statements of the Company.

On May 30, 2022, NT filed an appeal regarding the Black Case No. 918/2558 and No. 1651/2558 to the Supreme Administrative Court as the Black Case No. Or. 1229/2565 and Or. 1203/2565. DPC received a notification from the Supreme Administrative Court on August 18, 2022 and October 10, 2022 respectively. Currently, the case is under the consideration by the Supreme Administrative Court.

On December 28, 2022, the Central Administrative Court dismissed the case against DPC under the Black case No. 741/2559 for a total requested amount from DPC of Baht 522 million. On January 26, 2023, NT submitted the appeal for the decision in the case no. 741/2559 as the Black Case No. Or.347/2566. Therefore, the outcome of the disputes should be settled favourably and have no considerable impact to the consolidated financial statements of the Group.

- 2) The claim for revocation of the National Telecommunication Committee’s (“NTC”) order regarding the revenue incurred from the temporary service during the customer protection period after the Concession ended

On November 16, 2015, DPC filed a lawsuit against the National Broadcasting and Telecommunication Committee (“NBTC”) to the Central Administrative Court under case No. 1997/2558. This filed lawsuit revoked the NTC resolution, in which the office of the NBTC demanded that DPC deliver the revenue during the consumer protection period from September 16, 2013, to July 17, 2014, amounting to Baht 628 million.

In the same case, on September 16, 2016, the NBTC and the office of the National Broadcasting and Telecommunication Committee (“NBTC office”) filed a complaint to the Central Administrative Court as the Black Case No. 1441/2559. This complaint requested DPC to deliver revenue sharing for the consumer protection period from September 16, 2013 to July 17, 2014. The claim amount was Baht 680 million (including interest up to the submitted date of Baht 52 million) plus interest at the rate of 7.5% per annum of the claim amount from the submitted date until DPC delivers all revenue sharing in full.

On September 5, 2018, the NTC issued a letter informing of their resolution to allow DPC to deliver the revenue from the service income during the protection of all subscribers, totalling Baht 869 million. However, the NBTC had ordered DPC to provide a payment of Baht 628 million for the first period, and the remaining amount to be paid is Baht 241 million. Subsequently, on December 7, 2018, DPC filed a lawsuit with the Central Administrative Court to revoke such a resolution of NTC.

On June 2, 2021, the Central Administrative Court ordered the merger of the three cases.

On March 30, 2022, the Central Administrative Court revoked the NTC’s resolution, which ordered DPC to deliver the revenue from the service income during the protection of all subscribers in the total amount of Baht 869 million. The reason is that DPC had expenses incurred from the provision of services greater than the revenues generated.

On April 28, 2022, the NBTC submitted an appeal to the Supreme Administrative Court. Currently, the case is under the consideration by the Supreme Administrative Court.

The Group’s management considers that DPC has complied with the NBTC announcement regarding the Temporary Customer Protection Plan Following the Expiration of the Agreement for operations (“Telecommunication Service Agreement”) in 2013 and that DPC is obliged to submit the revenue after deducting any expenses to the NBTC office. However, DPC has expenses incurred from the service greater than the revenues generated. Therefore, DPC has no revenue remaining to submit to NBTC as stipulated in the announcement.
