

Management Discussion and Analysis

for the operating results

ended 31 December 2024

Overall of Business Operation and Company's Activities in 2024 and Q4/2024

Business Operations in 2024 period and Q4/2024

- In 2024, The Company and its affiliated hospitals reported a total revenue of 11,832.4 million Baht, which similar to the previous year. The increase in revenue was primarily driven by outpatient services for both Thai and foreign patients which rose by 9.9 percent yoy. On the other hand, the revenue from inpatient services decreased by (11.3) percent yoy due to changes in the Kuwaiti government's policy of referring patients abroad for treatment. Revenue from social security patient increased slightly by 1.0 percent yoy because the Company was impacted by the reduction in service rates for complex treatment ($RW \geq 2$) which affected total revenue by a decrease of (244.8) million Baht.
- The Company reported earnings before interest, taxes, depreciation and amortization (EBITDA) of 2,708.7 million Baht a decrease of (6.7) percent yoy, with an EBITDA margin of 22.9 The net profit attributable to the Company was 1,282.4 million Baht reflecting a (8.8) percent decrease yoy. Net profit margin was 10.8 percent.
- In 2024, the Company was impacted by the reduction in service rates for complex treatment ($RW \geq 2$) which affected net profit by a decrease of (190.7) million Baht and the impact of gains on net monetary position amounted to 61.8 million Baht, following to Thailand Accounting Standard (TAS) No.29 regarding Financial Reporting in hyperinflationary Economies. The Company operates through the subsidiary Bangkok Chain International (Lao) Co., Ltd., which the Company holds 75.2 percent of stakeholder.

The non-recurring items excluding from the hospital's normal operations in 2024

(Unit: Million Baht)

Items	Booking period	2024			
		Total Revenue	%yoy	Net profit	%yoy
Financial data as reported in the financial statements		11,832.4	0.0%	1,282.4	(8.8%)

Overall of Business Operation and Company's Activities in 2024 and Q4/2024

- For the Q4/2024, the Company reported total revenue of 2,803.6 million Baht, a decrease of (8.6) percent yoy. However, revenue from general patients grew by 3.4 percent, driven by the demand from patients seeking treatment at the medical centers of hospital network and the increased revenue from the Company's new services. However, the revenue from general inpatient treatment dropped by (15.0) percent yoy, which was impacted by changes in the Kuwaiti government's policy of referring patients abroad for treatment. Lastly, the revenue from social security patients decreased by (15.8) percent yoy due to the Impact of the reduction in service rates for complex treatment (RW $\geq$ 2) in 2024 amounted to (163.8) million Baht.
- Earnings before interest, tax, depreciation and amortization (EBITDA) amounted to 521.4 million Baht a decrease of (36.1) percent yoy. The EBITDA margin was 18.6 percent. Net profit attributable to owners of the Company was 233.0 million Baht, a decrease of (45.5) percent yoy. The net profit attributable to owners of the Company stood at 8.3 percent.

Company accreditations and activities in Q4/2024

- Kasemrad Ari Radiation Oncology Clinic has been accredited with ISO 9001:2015 certification for radiation treatment services reflecting a quality management system that meets international standard.
- World Medical Hospital signed a MOU with Moe Tree Hospital in Yangon, Myanmar in order to expand its branches and extend the patient referral base for the WMC New Frontier Cancer Center at World Medical Hospital.
- Kasemrad Hospital Sriburin received the Excellent Labor Relations and Welfare Award at the national level for the year 2024 marking the third year in a row from the Ministry of Labor, along with a recognition certificate as a model workplace for reducing work-related injuries for the year 2024 from the Social Security Office.
- World Medical Hospital signed an agreement with Aasandha Company Limited, a joint venture company between the Maldives government and Allied Insurance Company of Maldives allowing the hospital to refer complex patients from the Maldives for quality healthcare since January 2025 onward.

Analysis of the Consolidated Financial Performance

In 2024, the Company and its affiliated hospitals reported total revenue of 11,832.4 million Baht, which similar to the previous year. The revenue from general patient amounted to 7,929.5 million Baht, a decrease of (0.6) percent yoy. The details are as follows:

Revenue from OPD patients amounted to 4,426.6 million Baht, an increase of 9.9 percent yoy. This growth was due to the rise in Thai OPD patients seeking services at specialized centers such as specialized internal medicine centers and skin care and aesthetic centers as well as mobile health checkup services in collaboration with external private organizations. Additionally, the revenue growth from the new hospitals. Furthermore, revenue from the Company's new services continued to grow including skin and aesthetic services under Kasemrad Plastic Surgery (KPS) and mobile dental services through Bangkok Chain Dental Company.

Revenue from IPD patients amounted to 3,502.8 million Baht, a decrease of (11.3) percent yoy. The main reason was the impact of changes in the Kuwaiti government's policy of referring patients abroad for treatment, which resulted in reduced revenue from foreign patients. However, in 2024 excluding revenue from Kuwaiti patients, the revenue from foreign patients still grew by 17.3 percent compared to the previous year.

Revenue from social security patients amounted to 3,888.5 million Baht, an increase of 1.0 percent yoy. This was due to the Company recording extra items from Social Security Office, which impacted the revenue by a decrease of (244.8) million Baht. However, revenue from social security patients continued to grow due to an increase in the number of registered people in high demand hospitals after the quota expansion. Additionally, in 2024 Social Security Office has announced policies to enhance healthcare services for insured individuals, which supported the Company's revenue growth. These policies included annual health checkups, Obstructive Sleep Apnea test, mobile dental services, the mou for five complex diseases. The revenue continued to grow from social security patients using copayment with other benefits such as group insurance, health insurance.

Revenue related to COVID-19 treatment from government programs amounted to (92.6) million Baht, reflecting a decrease of (4.3) percent yoy.

Analysis of the Consolidated Financial Performance

In 2024, the Company reported profit from operating activities of 1,710.9 million Baht, a decrease of (12.7) percent yoy. Earnings before interest, tax, depreciation and amortization (EBITDA) amounted to 2,708.7 million Baht, a decrease of (6.7) percent yoy. The EBITDA margin was 22.9 percent. Net profit attributable to owners of the Company amounted to 1,282.4 million Baht reflecting a decrease of (8.8) percent yoy. The net profit attributable to owners of the Company stood at 10.8 percent.

Analysis of the Consolidated Financial Performance

Revenue breakdown by patient type of 2024

Revenue breakdown by patient type (Unit : Million Baht)	2024		2023		Change (%)
	Revenue	Proportion	Revenue	Proportion	
From general patients	7,929.5	67.7%	7,975.9	68.0%	(0.6%)
General OPD patients	4,426.6	37.8%	4,027.0	34.3%	9.9%
General IPD patients	3,502.8	29.9%	3,948.9	33.7%	(11.3%)
From social security patients	3,888.5	33.2%	3,849.8	32.8%	1.0%
From the government related to COVID-19	(92.6)	(0.8%)	(96.7)	(0.8%)	(4.3%)
Revenue from hospital operations	11,725.4	100.0%	11,729.0	100.0%	(0.0%)

In the fourth quarter of 2024, the Company had total revenue of 2,803.6 million Baht, a decrease of (8.6) percent yoy. The revenue from general patient amounted to 1,970.3 million Baht a decrease of (5.5) percent yoy.

The details are as follows:

Revenue from OPD patients amounted to 1,109.3 million Baht, representing an increase of 3.4 percent yoy. This growth was driven by the increased revenue from services provided through the hospital's medical centers such as the specialized internal medicine center, rehabilitation center, obstetrics and gynecology center and aesthetic center. Additionally, the Company had growth in revenue from health checkups in collaboration with external organizations and revenue from the Company's new services. Furthermore, revenue from CLMV patients continued to grow well for the hospitals in the network located near the Thai border, including Kasemrad Hospital Sriburin, Kasemrad International Hospital Aranyaprathet and Kasemrad International Hospital Vientiane.

Revenue from IPD patients amounted to 861.0 million Baht, a decrease of (15.0) percent yoy. The primary reason for this decline was the impact of the change in Kuwait's government policy regarding the referral of patients for treatment abroad. However, the Company has continuously expanded foreign patient base to new groups such as Libyan patients.

Revenue from social security patient for Q4/2024 amounted to 857.8 million Baht, a decrease of (15.8) percent yoy.

In the Q4/ 2024, the Social Security Office reduced the medical service rate for complex treatment (RW $\geq$ 2) from 12,000 Baht per RW to 8,200 Baht per RW for the pending reimbursement of

Analysis of the Consolidated Financial Performance

2024. This led to a reduction in the hospital's revenue from the Social Security program in Q4/2024, impacting the Revenue from social security patient by (163.8) million Baht. Excluding this factor, the unaffected revenue would have been 1,021.6 million Baht, an increase of 0.3 percent yoy. The growth in regular operations came from services provided to patients with complex disease treatment, annual health checkups, Obstructive Sleep Apnea test, dental services in the hospital as well as mobile dental services.

Additionally, revenue from social security patient grew due to an increase in the number of registered persons at hospitals in the network. In Q4/2024, the average number of registered insured persons was 1,031,145 an increase of 1.6 percent yoy. Breaking down by hospital group, the Kasemrad Hospital group had an average of 931,181 registered persons, a 1.9 percent increase yoy. This growth was seen in branches with high registration demand, including Kasemrad Hospital Prachachuen, Kasemrad Hospital Bangkai and Kasemrad Hospital Ramkhamhaeng. The Karunvej Hospital group had an average of 99,964 registered persons, a decrease of (0.9) percent yoy. However, the number of registered persons increased by 1.5 percent qoq due to the hospital's campaign to promote the upgrading of Karunvej Hospital Pathumthani to Kasemrad Hospital Pathumthani starting in January 2025. The newly completed areas such as service areas for social security patients, the rehabilitation medicine center, and inpatient rooms, have already begun operations.

In the Q4/2024, the revenue related to the treatment of COVID-19 from government projects amounted to (64.7) million Baht, a decrease of (10.0) percent yoy due to adjustments related to items that could not be reimbursed according to the conditions set by the National Health Security Office (NHSO) and Social Security Office (SSO).

The Company reported profit from operating activities for Q4/2024 of 256.3 million Baht, a decrease of (55.9) percent yoy. Earnings before interest, tax, depreciation and amortization (EBITDA) amounted to 521.4 million Baht, a decrease of (36.1) percent yoy. The EBITDA margin was 18.6 percent. Net profit attributable to owners of the Company amounted to 233.0 million Baht reflecting a decrease of (45.5) percent yoy. The net profit attributable to owners of the Company stood at 8.3 percent.

Revenue from hospital operations	2,763.4	100.0%	3,031.9	100.0%	

Analysis of the Consolidated Financial Performance

The cost and operating expenses for Q4/2023 amounted to 2,547.3 million Baht, an increase of 2.5 percent yoy.

The cost of hospital operations (COGS) increased by 1.9 percent yoy due to higher medical and personnel expense. This increase was attributed to the extension of operating hours at specialized medical centers and the opening of new medical centers. Meanwhile, selling, general, and administrative expenses (SG&A) rose by 5.8 percent yoy, due to an increase in the provision for doubtful debts and bad debts as well as an increase in depreciation expenses from the opening of Kasemrad Ari Radiation Oncology Clinic and the opening of service areas and specialized medical centers in the newly renovated hospital branches. However, in Q4/2023, the Company reported a loss on foreign exchange rate of (18.4) million Baht, while in Q4/2024, the Company reported a loss on exchange rate of (7.0) million Baht.

The Company continues to focus on implementing policies to manage costs and control expenses, ensuring they remain at appropriate levels.

Analysis of the Consolidated Statement of Financial Position

Consolidated statements of financial position (Unit : Million Baht)	As of		Change (%)
	31 December 2024	31 December 2023	
Total Assets	17,374.8	17,730.7	(2.0%)
Current assets	3,772.6	4,842.8	(22.1%)
Non-current assets	13,602.2	12,887.9	5.5%
Total Liabilities	3,347.9	4,026.2	(16.8%)
Current liabilities	2,878.1	3,505.2	(17.9%)

Consolidated cash flow statements (Unit : Million Baht)	For the period ended 31 December	
	2024	2023
Cash flow from operating activities	2,677.1	4,183.1
Cash flow used in investing activities	(1,557.7)	(918.7)
Cash flow used in financing activities	(1,927.6)	(3,679.5)
The impact of financial reporting in hyperinflation	(29.4)	N/A
Net decrease in cash and cash equivalents	(837.7)	(415.1)
Cash and cash equivalents at 1 January	2,183.1	2,598.2
Cash and cash equivalents at 31 December	1,345.4	2,183.1

As of 31 December 2024, there was a net decrease of (837.7) million Baht

Net cash at the beginning of the period on 1 January 2024, was 2,183.1 million Baht. The operational activities contributed to net cash at the end of the period on 31 December 2024 amounted to 1,345.4 million Baht. For detailed information on the cash flows for each activity are as follows:

Net Cash flow from operating activities amounted to **2,667.1 million Baht** due to the operating profit and the receipts of payments for healthcare services from the government related to COVID-19.

Net cash flow used in investment activities amounted to **(1,557.7) million Baht**, derived from the renovation of hospital i.e. the expansion of service area at Kasemrad Hospital Bangkai, Kasemrad Hospital Prachachuen, Kasemrad Hospital Pathumthani. The purchase of land in Rayong province in order to expand the hospital as well as the payment of registered capital of subsidiaries, and investment in medical equipment for the new specialized centers.

Net cash flow used in financing activities amounted to **(1,927.6) million Baht**, due to the repayment of bank loan and the payment of financial interest.

Forward outlook

For the fiscal year 2025, the Company continues to focus on enhancing the capability of medical services for all levels of existing patients, as well as expanding the patient base both domestically and internationally. This will be achieved through the enhancement of medical services in the hospitals' medical centers. Additionally, with the new services provided, the performance of the three newly opened hospitals will continue to demonstrate consistently improved operational outcomes. The renovations of several hospitals completed in 2025, along with upgrading Karunvej Hospital Pathumthani to Kasemrad Hospital Pathumthani, will significantly contribute to an increased number of patients. This will serve as a supporting factor for the growth of the Company's revenue.

In 2025, the Company received an increased quota of insured patients from the Social Security Office for hospitals with the capacity to provide services to insured individuals. The Company will continue to raise awareness and expand the insured patient base at Kasemrad and Karunvej hospitals. Nevertheless, the Company will continue to maintain its current patient base while expanding to new groups, such as patients from the Maldives.

The Company remains committed to maintaining high-quality medical services and expanding its patient base through the opening of new hospitals and improvements to existing ones, with the aim of sustainable growth. The operational details in line with the implementation of the Company's growth strategy are as follows:

1. Continuous improvement in the overall operation of all three new hospitals.

1) **Kasemrad International Hospital Aranyaprathet**, with a capacity of 110 beds, is located near Rong Kluea Market in Aranyaprathet District, Sa Kaeo Province. The hospital targets Cambodian patients and local residents. For the Q4/2024, the hospital reported revenue of 63.2 million Baht, reflecting a 18.0 percent increase yoy. EBITDA was 11.5 million Baht rising 161.4 percent yoy. The hospital has the following strategic plans:

- Prepare service points at the border for receiving and sending Cambodian patients, while facilitating the processing of documents for entry into Thailand, in preparation for the permanent border opening in 2025.
- Expand the network of partner clinics, including public hospitals in Cambodia, to serve as a referral hub for patient for both Thai and foreign patients.
- Continuously establish networks with insurance companies, insurance agents, government agencies, and private sectors, both in Thailand and Cambodia, outside of the Poipet area to build trust and create channels for promoting activities, treatment packages, room rates and special services.
- Organize seminars to educate people and organizations through both offline and online channels, raising health awareness while also promoting the hospital.

Forward outlook

2) Kasemrad Prachinburi Hospital, with a capacity of 115 beds, is located in the 304 Industrial Estate, Si Maha Phot District, Prachinburi Province. The hospital targets general and social security patients. For the Q4/2024, the hospital reported revenue of 47.1 million Baht, a (16.7) percent decrease yoy. EBITDA was (10.3) million Baht. The hospital has the following strategic operational plans:

- Improve the scheduling of doctors, medical staff, and service systems to increase efficiency, reduce patient waiting times, and extend service hours for medical centers with high patient volumes, such as the Pediatrics Center, Rehabilitation Medicine Center and Dental Center.
- Continuously follow up with patients after service to increase the return rate of existing patients. Additionally, promote sales activities through both online and offline channels to expand the patient base, including both general patients and those under the social security program.
- Expand the base of social security patients by increasing awareness among hospital staff and medical personnel, and through online promotion. This will ensure that patients receive more effective services as social security patients can also use copayment with other benefits such as group insurance, health insurance and self-payment options.
- Expand the network of clinics to establish a referral hub for patient in Prachinburi Province.

3) Kasemrad International Hospital Vientiane, with a capacity of 110 beds, Located in Vientiane Capital, Lao PDR. This hospital targets general patients and international patients. For the Q4/2024, the hospital reported revenue of 88.9 million Baht, an increase of 1.4 percent yoy. EBITDA was 0.5 million Baht. The hospital has the following strategic operational plans:

- Build relationships with local hospitals, government agencies, and private companies to raise awareness of the hospital and increase access to services for patients at all levels. This will be accompanied by the continuous expansion of networks with agencies and insurance companies both domestically and internationally.
- Enhance the efficiency of the service system to simplify processes and reduce patient waiting times, while providing continuous training for staff and hospital personnel to strengthen knowledge and improve operational capabilities.
- Organize public relations activities to increase health awareness among local residents, along with promotional activities during festivals, such as health check-ups, dental check-ups, vaccination packages, prenatal care etc.

Forward outlook

2. Enhancing Medical Services for General Patients and Social Security Program Patients

The Company is enhancing medical services for both general patients and those under the social security program, as well as expanding the base of insured individuals. Key strategies for operation include:

- **Accelerating awareness and expanding the base of registered person.** In 2025, the Company received an increase in the quota of insured patients based on the capacity and service standards of the hospitals in its network. The total quota for insured individuals is 1,878,500 people, reflecting a 1.2 percent yoy increase. As of Q4/2024, the number of insured individuals registered with hospitals in the network is 1,033,657 people, reflecting a 1.7 percent yoy increase. For 2025, the Company expects to further expand the insured base following the upgrade of Karunvej Hospital Pathumthani to Kasemrad Hospital Pathumthani, starting January 1, 2025. This upgrade will enhance the hospital's image, including the addition of specialized medical centers and improved facilities for patients. Additionally, the completion of renovations at all Kasemrad hospitals in 2025 will support the registration of insured individuals at these hospitals.

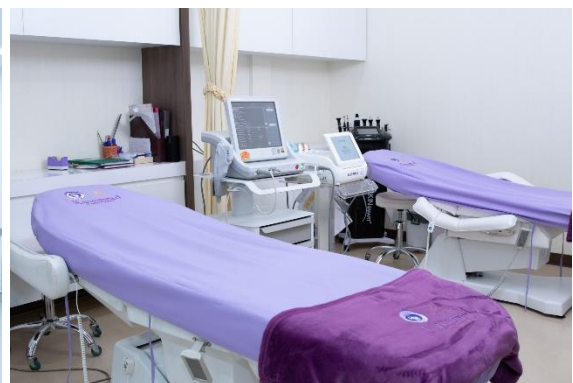

- **The Company officially inaugurated the Kasemrad Ari Radiation Oncology Clinic** in September 2024, providing services to general patients and serving as a referral clinic for social security patients within the Kasemrad network. In Q4/2024, the clinic reported revenue of 12.9 million Baht and EBITDA was 1.6 million Baht. The clinic specializes in cancer treatment through radiation therapy, utilizing advanced technologies such as CT Simulation for radiation planning, Linear Accelerator, and High Dose Rate Brachytherapy, a precise technique that minimizes side effects for patients. For 2025, the Company plans to extend service hours to accommodate up to 65 patients per day. Additionally, the clinic aims to expand its patient base by including social security patients from other hospital networks, as well as civil servant and universal coverage patients.

- **Bangkok Chain Dental Co., Ltd has opened the mobile dental service** through a joint venture between Bangkok Chain Hospital Public Company Limited and Dental Factory Co., Ltd., with ownership stakes of 60 percent and 40 percent, respectively. In 2024, the Company has provided services in five provinces: Bangkok, Nonthaburi, Pathum Thani, Nakhon Ratchasima, and Rayong. The service received positive feedbacks from government agencies, private companies, public schools, and private schools. For 2025, the Company aims to expand customer base by increasing the number of mobile dental units while also extending services to additional provinces.

- **Ten affiliated hospitals provide medical treatments for 5 complex diseases** extending for 6 months, from January to June 2025. This initiative covers surgeries for heart and Cardiovascular treatment, Stroke, Breast Cancer treatment, Myomectomy treatment, and Kidney and Gall Bladder stone treatment for patients entitled to social security program.

Forward outlook

- **The Company launched a plastic surgery center** to capitalize on Thailand's growing beauty market operating under the brand Kasemrad Plastic Surgery (KPS). The center offers services using medical equipment and technology that meet the standards of large hospitals with highly experienced and well-recognized surgeons. In 2024, the Company opened two branches: Kasemrad International Hospital Rattanaibeth and Kasemrad Hospital Ramkhamhaeng. For 2025, the Company plans to expand its branches to other hospitals under Kasemrad network while also growing its customer base through online and offline promotional activities

3. Hospitals currently under construction or renovation are proceeding according to the plan.

The Company has an expansion plan for two hospitals as follows:

- **Kasemrad Hospital Suvarnabhumi**, located in Samut Prakan Province, has approximately 268 licensed beds and an investment budget of around 1,650 million Baht. The funding will come from internal cash flow and long-term loans. Currently, the land is being prepared and an EIA is being submitted within Q4/2024. Construction is expected to begin in 2025 and the hospital is anticipated to open in early 2027.

Forward outlook

- **Kasemrad Hospital Rayong, Rayong Province** has approximately 250 registered beds and targets both general patients and those covered under the social security program. With around 517,000 insured individuals and multiple industrial estates in the province, there is a strong opportunity for competition and expanded access to healthcare services. Additionally, Rayong is part of the Eastern Economic Corridor (EEC), allowing the Company to benefit from tax incentives for establishing a hospital in the area. The Company is currently in the design phase and preparing to submit an EIA. Construction is expected to begin in 2026, with operations commencing in 2028.

In 2024, the Company focused on enhancing service quality by establishing new specialized centers and renovating hospital environments to improve patient experience and satisfaction across all levels. As part of this initiative, the Company completed renovations at four hospitals which have commenced operations. The details are as follows:

- **Kasemrad Hospital Chachoengsao**, the improvement of the internal environment of the hospital and the establishment of a comprehensive heart center helping reduce waiting times for treatment. As a result, the hospital has become a referral hub for heart disease patients in Chachoengsao province and surrounding areas.

- **Kasemrad Hospital Prachachuen**, the improvement of service areas, inpatient rooms, intensive care unit (ICU), emergency rooms (ER), and x-ray rooms. After opening the newly improved facilities, the hospital has been able to allocate space more efficiently for patient services, reducing waiting times and improving the hospital's image. This has contributed to increased registrations for insured persons with the hospital in 2025.

- **Kasemrad Hospital Bangkae**, the improvement of both the interior and exterior design of the hospital building, including the dialysis center, laboratory, delivery room, operating room, inpatient rooms, and waiting areas for outpatients. For this hospital, there are still some areas and specialized centers under ongoing improvements, which will continue into 2025.

- **Kasemrad Hospital Pathumthani**, the renovation of a new building for general patients including a premium dental center, health check-up center and inpatient rooms. Since the gradual opening of these services in Q2/2024, patients have experienced more convenience in accessing services, contributing to insured persons returning to register with the hospital.

Forward outlook

For 2025, the Company continues to implement renovations for both interior and exterior hospital spaces across its network. The ongoing improvements are as follows:

- **Kasemrad Hospital Bangkae**, the renovations of outpatient service areas for social security and general patients as well as intensive care unit (ICU) which is expected to be fully completed by the beginning of 2026.

- **Kasemrad Hospital Pathumthani**, the renovation of the existing building which includes intensive care unit (ICU), outpatient service areas, emergency rooms (ER) and service areas in the new building, is aimed at accommodating the growth of both Thai and international patients. The entire renovation is expected to be completed by March 2025. This will result in an improved atmosphere within the hospital, an increased capacity to accommodate more patients, and better management of space and services. It will also reduce waiting times, enhance satisfaction, and provide a positive experience for all levels of patients.

- **Kasemrad Hospital Maesai**, the construction of a new 3-story building to accommodate the needs of both Thai and international patients. The new building will include areas for general patient, emergency rooms (ER), pediatric center, dental center and inpatient rooms. Construction is set to begin in March 2025, with expected to operate in Q2/2026.

Forward outlook

- **Kasemrad Hospital Ramkhamhaeng**, the construction of a new building to accommodate a larger number of general and social security patients. The building provides outpatient service areas, inpatient rooms and a parking building. Construction is expected to begin within 2025, with the facility anticipated to open in 2027.

Sustainability Development

The Company is committed to operating its business sustainably considering environmental, social, and governance impacts comprehensively and inclusively for all stakeholders throughout the value chain.

The Company has been rated "AA" in the SET ESG Ratings by the Stock Exchange of Thailand

The Company has been rated "AA" in the SET ESG Ratings by the Stock Exchange of Thailand (SET) for the second consecutive year in 2024. This rating reflects the Company's commitment to operating in accordance with sustainable development principles, considering the environment, society, and corporate governance, while also ensuring strong financial performance and long-term value creation for shareholders and stakeholders.

The Company received an award for excellence in sustainability disclosure from the Thaipat Institute

The Company certified an award for excellence in sustainability disclosure from the Thaipat institute. This certificate based on the 2024 annual evaluation of registered securities, recognizes excellence in sustainability disclosure. The criteria for the award follow the Ceres- ACCA practices which evaluate completeness, credibility and communication in addressing economic, social, and environmental (ESG) issues beyond financial information.

The Company continues to operate together with building a strong environmental care such as promoting the use of renewable energy, installing rooftop solar panels, managing waste effectively, contributing to the healthcare of the community and fostering corporate governance within the organization.
