Overview and Factors Impacting the Healthcare Industry for 2025

In 2025, while the Thai economy encountered slowdowns and volatility driven by multifaceted global uncertainties, the healthcare industry remained a critical and resilient fundamental sector. A primary catalyst for this stability is Thailand's transition into a fully aged society, which continues to drive a sustained increase in demand for medical services. Concurrently, healthcare consumers are shifting their focus toward preventive care, and value-based services. These evolving behaviors necessitate that healthcare providers remain agile refining their business strategies with speed and flexibility to effectively navigate the dynamic landscape and emerging market shifts.

Amid economic volatility, health insurance continues to play a pivotal role in the healthcare industry. While several insurance providers have shifted their policy from full-coverage lump-sum models to Co-payment structures, this strategic transition enables insurers to manage claim costs more effectively. Consequently, the resulting downward trend in insurance premiums has enhanced public accessibility to health coverage. Importantly, these new conditions are not applied retroactively to existing policyholders. As a result, both the established customer base and new policyholders under the revised structures continue to serve as a consistent and reliable source of revenue for the hospital.

Beyond private consumption trends, the government has implemented drug and medical supply price control measures through the Ministry of Commerce. This is part of the 'Quick Big Win' policy—a government initiative aimed at reducing the cost of living by tightening the oversight of pharmaceutical and medical supply pricing. Under these regulations, healthcare facilities are required to maintain clear, transparent, and auditable price disclosures. In full compliance with these measures, the Company has integrated QR Code systems across all network hospitals, allowing patients to easily verify and access pricing information for enhanced transparency.

Concurrently, civil unrest and border disputes between Thailand and Cambodia led to the closure of border crossings beginning in June 2025. This situation has impacted hospitals located in border regions, hindering their ability to operate at full capacity. The primary challenges include the inability of international patients to cross the border for medical services, coupled with a trend among certain patient groups to defer elective treatments due to the ongoing uncertainty.

Despite external challenges, the private hospital industry continues to benefit from supportive measures by the Social Security Office. Specifically, SSO has maintained the reimbursement rate for high-complexity medical services ($RW \geq 2$) at 12,000 baht per RW throughout 2025. This consistent reimbursement policy serves as a significant positive driver for our network of contracted hospitals, ensuring revenue stability and incentivizing the delivery of advanced clinical care for insured patients.

Overall performance and activities for 2025 period and the fourth quarter of 2025

Business Operations in 2025

Unit: Million Baht

- In 2025, the Company reported a total revenue of 12,025.4 million baht, representing a 1.6 percent increase compared to the previous year. The revenue components are as follows:

Revenue from the Social Security patient grew by 6.7 percent yoy, driven by a 0.6 percent growth in registered persons. This growth is attributed to the continuous service enhancements and facility upgrades at Kasemrad Hospital Bangkae, Kasemrad Hospital Prachachuen, and Kasemrad Hospital Pathumthani, which improved patient convenience and reduced waiting times. Furthermore, revenue was bolstered by reimbursement rate for complexity treatment (RW $\geq$ 2) at 12,000 baht per RW throughout 2025. Additional growth drivers included expansion of specialized centers such as sleep apnea services, mobile dental service and an increase in patient referrals from outside our hospital network. Moreover, strong performance of Kasemrad Ari Radiation Oncology Clinic contributed significantly to the diversified revenue streams within Social Security segment.

Revenue from general patients saw a decline of (2.1) percent yoy. This was comprised of a (1.3) percent decrease in outpatient revenue and a (3.1) percent decrease in inpatient revenue. The contraction was primarily attributed to a slowdown in international patient volume, particularly from Cambodia following border closures during the second half of 2025. Additionally, performance was impacted by temporary service area closures for renovations across several hospitals during the first half of the year. Nevertheless, specialized centers such as the heart center and the obstetrics and gynecology center, continued to demonstrate resilient growth.

- The Company reported EBITDA of 2,881.4 million baht, a 6.4 percent increase. The EBITDA margin improved to 24.0 percent.
- Net profit attributable to the Company's shareholders totaled 1,316.4 million baht, representing an increase of 2.7 percent yoy with the margin at 10.9 percent, consistent with the previous year.

Overall performance and activities for 2025 period and the fourth quarter of 2025

Business Operations in the fourth quarter of 2025

Unit: Million Baht

- For the fourth quarter of 2025, the Company recorded total revenue of 2,998.1 million baht, reflecting 6.9 percent increase compared to the previous year. The revenue breakdown is as follows:

Revenue from the Social Security patient rose by 15.4 percent yoy. For the fourth quarter of 2025, this growth was driven by the 12,000 baht per RW reimbursement for complexity treatments (RW $\geq$ 2) throughout Q4/2025. Performance was further bolstered by specialized services including sleep apnea services, patient referrals, proactive dental services and the operations of Kasemrad Ari Radiation Oncology Clinic. Additionally, revenue growth was supported by the expansion of service areas dedicated to insured persons at Kasemrad Hospital Prachachuen and Kasemrad Hospital Pathumthani.

Revenue from general patients saw a decline of (0.2) percent yoy. This was characterized by a (2.3) percent decrease in outpatient revenue, while inpatient revenue grew by 2.5 percent yoy. The performance was affected by a downturn in international patient, particularly from Cambodia due to border closures throughout the quarter and temporary two-week closure of Kasemrad International Hospital Aranyaprathet in December 2025. Nevertheless, Thai patient revenue demonstrated growth driven by the robust performance of specialized centers across the network, increased contributions from Kasemrad Plastic Surgery and rising revenue from both new facilities and renovated hospitals as well as the strategic enhancement of medical technology

- The Company reported EBITDA of 639.1 million baht, a 22.6 percent increase. The EBITDA margin improved to 21.3 percent.
- Net profit attributable to the Company's shareholders totaled 259.5 million baht, representing an increase of 11.4 percent yoy with the margin at 8.7 percent.

Overall performance and activities for 2025 period and the fourth quarter of 2025

Company Activities in the fourth quarter of 2025

- **Kasemrad Hospital Chachoengsao** celebrated its 10th anniversary, reaffirming its commitment to providing exceptional medical services to the residents of Chachoengsao and neighboring areas. On this occasion, the hospital inaugurated comprehensive heart center, fully equipped for diagnosis, treatment and continuous care. Managed by a team of specialized cardiologists and utilizing standardized medical technology, the center is prepared to address the increasing prevalence of cardiovascular diseases.
- **Kasemrad International Hospital Rattanaibeth** hosted a Grand Opening ceremony to commemorate its 33rd anniversary of healthcare excellence. A key highlight of the event was the unveiling of the first 3-Tesla MRI technology in Nonthaburi Province. This milestone reflects the hospital's strategic commitment to becoming a comprehensive healthcare hub, effectively catering to the rapidly growing health demands of residents in Western Bangkok and the surrounding areas.
- The Laboratory Department of **Kasemrad International Hospital Aranyaprathet** has officially achieved Quality Management System Certification in Medical Technology Standards. Granted by the Medical Technology Council (Thailand), this initial accreditation was formally presented at the THAILAND LA FORUM 2025 underscoring the hospital's commitment to international-grade laboratory excellence.
- **Kasemrad Hospital Sriburin** was honored with the 2025 "Good Level" Award for Excellence in Disability Employment Support. This recognition was jointly presented by the Department for Empowerment of Persons with Disabilities and the Disabled Peoples' International Asia-Pacific (DPI-AP) Thailand. The award celebrates the hospital's unwavering commitment to providing sustainable career opportunities for persons with disabilities, serving as a role model for social inclusivity and equity.
- **The Company conducted a tender offer to acquire shares of Navanakorn Medical Co., Ltd.** from shareholders between Oct 1, 2025 and Dec 15, 2025. Following the completion of this share acquisition, The Company shareholding in Navanakorn Medical increased from 79.44 percent to 81.17 percent.
- **The Company has been awarded an "AA" SET ESG Rating for 2025** by the Stock Exchange of Thailand, marking our third consecutive year of recognition. Furthermore, BCH achieved an impressive FTSE Russell ESG Score of 4.0/5.0. These achievements reflect our unwavering commitment to sustainable business practices across all Environmental, Social, and Governance dimensions. Our focus remains on fostering long-term stability while delivering value to our shareholders and all stakeholders.
- **Bangkok Chain Management Company Limited** has launched Alkaline Mineral Water, produced from 100% natural mineral sources. The product is now available through multiple distribution channels, including online platforms and the network of Kasemrad hospitals.

Analysis of the Consolidated Statement of Financial Position

For the overall performance of the Company and affiliated hospitals in 2025, revenue from hospital operations of 11,913.0 million baht, representing an increase of 1.6 percent yoy. Revenue from general patients totaled 7,763.8 million baht, which decline by (2.1) percent yoy. The details are as follows:

The revenue from general OPD patients amounted to 4,368.8 million baht, a decrease of (1.3) percent yoy, due to a slowdown in international patients. Specifically, Cambodian patient volumes at Kasemrad International Hospital Aranyaprathet and Kasemrad Ramkhamhaeng were impacted by the Thai-Cambodian border closure during the second half of 2025. Conversely, Thai outpatient revenue continued to grow, driven by specialized medical centers such as Radiotherapy, Surgery, and Hemodialysis centers. Growth was further supported by increased patient volumes at new and renovated facilities, including Kasemrad International Vientiane, Kasemrad Prachinburi, and Kasemrad Pathum Thani. Additionally, the expansion of Kasemrad Plastic Surgery (KPS) and comprehensive body contouring services significantly contributed to outpatient revenue growth.

The revenue from general IPD patients amounted to 3,395.0 million baht, a decrease of (3.1) percent yoy, due to slowdown in international patients particularly Cambodia as well as the Kuwaiti government has revised policy on overseas medical referrals. Furthermore, certain service areas underwent renovations during the first half of 2025, including Kasemrad Hospital Bangkai and Kasemrad Hospital Pathumthani. Nevertheless, Thai inpatient revenue continued to grow through specialized centers across the network such as the Comprehensive Heart Center and the Obstetrics-Gynecology Center.

The revenue from social security patient amounted to 4,149.0 million baht, 6.7 percent rise yoy.

In 2025, the average number of registered persons in the Kasemrad network reached 1,027,813, representing a 0.6 percent increase yoy. This growth resulted from online promotional activities and collaborations with private sectors, industrial factories and local communities. Additionally, proactive services were implemented across all Kasemrad branches, including health check-ups, dental services, and mobile vaccination units.

Additionally, Social Security revenue grew from medical service fees for high-complexity cases ($RW \geq 2$) at a rate of 12,000 baht per RW throughout 2025. Further growth was driven by patient referral services and sleep apnea diagnostics, for which the hospital continues to provide ongoing patient follow-up throughout 2026.

Analysis of the Consolidated Statement of Financial Position

For 2025 the cost and operating expenses amounted to 10,210.7 million baht, representing slightly increase 0.9 percent yoy

The cost of hospital operations (COGS) was 8,589.4 million baht, representing an increase of 0.7 percent. This was primarily driven by higher personnel expenses, doctor fees, and medical supplies. However, service costs and patient referral expenses decreased, attributed to enhanced referral efficiency within our hospital network. Additionally, utility costs saw a decline, largely due to lower electricity expenses and the successful implementation of Solar Rooftop projects across 10 network hospitals.

Selling, General, and Administrative (SG&A) expenses totaled 1,621.3 million baht, a 1.7 percent increase yoy due to the higher of repair and maintenance costs from the renovation of Kasemrad Hospital Prachachuen and service enhancements through new medical technologies, such as the installation of the 3-Tesla MRI at Kasemrad International Hospital Rattanakibeth. Conversely, other expense categories declined, including promotional expenses, rental costs, and bad debt and doubtful accounts, following successful collections from trade receivables and accrued income. For the 2025, the Company recorded an operating foreign exchange loss of THB (17.0) million.

Additionally, income tax expense for 2025 amounted to 402.9 million baht, a 16.4 percent increase yoy, because the Company did not recognize deferred tax for Sothornvechkij Co., Ltd.

The Company reported an operating profit of 1,814.7 million baht for 2025, representing an increase 6.1 percent yoy. Earnings before interest, tax, depreciation, and amortization (EBITDA) amounted to 2,881.4 million baht, rise 6.4 percent yoy, with an EBITDA margin of 24.0 percent. Net profit attributable to the Company was 1,316.4 million baht, representing an increase of 2.7 percent yoy with a net profit margin attributable to the Company's shareholders of 10.9 percent.

Revenue breakdown by patient type in 2025

Analysis of the Consolidated Statement of Financial Position

For the overall performance of the Company and affiliated hospitals for fourth quarter of 2025, revenue from hospital operations of 2,956.3 million baht, representing an increase of 7.0 percent yoy. Revenue from general patients was 1,970.3 million baht, a decrease of (0.2) percent yoy. The details are as follows:

The revenue from general OPD patients amounted to 1,084.0 million baht, a decrease of (2.3) percent yoy, due to a slowdown in both Thai and international patient volumes. Specifically, Cambodian patient traffic was severely impacted by the Thai-Cambodian border closure throughout Q4/2025 and the two-week closure of Kasemrad International Hospital Aranyaprathet in December 2025. Consequently, Cambodian outpatient revenue plunged by 86.8 percent year-on-year. Despite these challenges, Q4/2025 outpatient revenue saw growth from the new general patient building at Kasemrad Pathum Thani, along with increased revenue from newer facilities that have successfully built stronger brand awareness and medical trust, such as Kasemrad International Hospital Vientiane and Kasemrad Hospital Prachinburi.

The revenue from general IPD patients amounted to 882.9 million baht, an increase of 2.5 percent yoy. This growth was driven by specialized centers across the network, such as the Comprehensive Heart Center, Obstetrics-Gynecology Center and Diagnostic Radiology Center along with new inpatient room openings and the expansion of Kasemrad Plastic Surgery.

The revenue from social security patient amounted to 989.6 million baht, an increase of 15.4 percent yoy. This increase resulted from providing patient referral services, sleep apnea diagnostic services and mobile dental units, all of which contributed to the overall growth.

In the fourth quarter of 2025, the Company recorded a reversal of high-complexity treatment ($RW \geq 2$) totaling (53.1) million baht due to data submission discrepancies regarding Social Security Office reimbursement conditions. Since 2025, the Company has implemented a pre-audit system for medical procedures, effectively reducing risks and ensuring alignment with SSO reimbursement criteria.

The cost and operating expenses for Q4/2025 amounted to 2,642.1 million baht, representing increase 3.7 percent yoy

The cost of hospital operations (COGS) was 2,193.4 million baht, up 2.8 percent year-on-year, due to higher personnel expenses, doctor fees and medical supplies. However, service costs decreased as Kasemrad Plastic Surgery (KPS) replaced Preventive and Rehabilitation Medicine services. Patient referral costs also declined, partly

Analysis of the Consolidated Statement of Financial Position

due to the opening of Kasemrad Ari Radiation Oncology Clinic and enhanced specialized medical centers, improving internal referral efficiency. Additionally, utility expenses saw a notable reduction.

Selling, General, and Administrative (SG&A) expenses totaled 448.6 million baht, up 8.3 percent yoy, primarily due to higher medical equipment maintenance and increased promotional expenses. Additionally, the Company recorded an operating foreign exchange loss of (7.0) million baht in Q4/2025. Nevertheless, the Company remains committed to its policy of effective cost management and maintaining administrative expenses at an appropriate and optimized level.

The Company reported an operating profit in Q4/2025 amounting to 356.0 million baht, representing an increase of 38.9 percent yoy. Earnings before interest, tax, depreciation, and amortization (EBITDA) amounted to 639.1 million baht, grew 22.6 percent yoy, with an EBITDA margin of 21.3 percent. Net profit attributable to the Company was 259.5 million baht, an increase of 11.4 percent yoy. The net profit margin attributable to the Company's shareholders was 8.7 percent.

Analysis of the Cash Flow Statement

Consolidated cash flow statements (Unit : Million Baht)	For the period ended 30 September	
	2025	2024
Cash flow from operating activities	2,681.7	2,677.1
Cash flow used in investing activities	(1,171.6)	(1,557.7)
Cash flow used in financing activities	(1,316.3)	(1,927.6)
The impact of financial reporting in hyperinflation	52.0	(29.4)
Net increase (decrease) in cash and cash equivalents	245.7	(837.7)
Cash and cash equivalents at 1 January	1,345.4	2,183.1
Cash and cash equivalents at 31 December	1,591.1	1,345.4

As of 31 December 2025, there was a net increase of 245.7 million baht

The net cash at the beginning of the period on 1 January 2025 was 1,345.4 million baht. The operational activities contributed to the net cash at the end of the period on 31 December 2025, amounted to 1,591.1 million baht. For detailed information on the cash flows for each activity are as follows:

Net Cash flow from operating activities amounted to 2,681.7 million baht, driven by operating profits from the network hospitals and cash collections from the Social Security Office and trade receivables. driven by operating profits from the affiliated hospitals and reimbursements from the Social Security Office. Furthermore, the Company recorded a cash inflow of 246 million baht from the settlement of accounts receivable related to medical services provided to Kuwaiti patients through the Kuwait Embassy.

Net cash flow used in investment activities amounted to (1,171.6) million baht, primarily directed toward enhancing service capabilities through building renovations and acquisition of advanced medical equipment across the affiliated hospitals. Furthermore, the Company continued its capital expenditure for construction of two new hospitals: Kasemrad Hospital Suvarnabhumi and Kasemrad Hospital Rayong. The Company also allocated funds for liquidity management through investments in short-term fixed income funds.

Net cash flow used in financing activities amounted to (1,316.3) million baht, primarily attributed to dividend payments to shareholders and the repayment of loans from financial institutions.

Forward Outlook

Throughout the year 2026, the trend of proactive and preventive healthcare behavior is expected to maintain its continuous growth momentum. Simultaneously, Thailand's increasingly clear political stability serves as a pivotal factor in bolstering the confidence of both domestic and international investors. This is particularly evident in the tourism sector, which is poised for a significant resurgence, creating a substantial positive impact on the private hospital industry through the expansion of Medical Tourism. Furthermore, the adjustment of the Social Security Office's wage ceiling and contribution rates, effective January 1, 2026, will enhance the Social Security Fund's long-term stability. This fiscal strengthening enables the fund to revise benefit disbursements for insured members to more accurately reflect the actual rising operating costs of hospitals.

However, amidst emerging opportunities and changes, the hospital industry must swiftly adapt strategies to keep pace with evolving patient behaviors and market conditions. Specifically, alignment with new insurance policies transitioning from lump-sum coverage to Co-payment models is crucial. Simultaneously, accelerating technology and service innovation remains a key competitive factor to meet patient demands for convenience, value, and consistently satisfying treatment experiences.

To adapt, the Company remains committed to providing standardized quality medical care and enhancing hospital capabilities through comprehensive service technology upgrades. This covers diagnosis, treatment, rehabilitation, and referrals, alongside continuous personnel development. Furthermore, the Company plans to expand new hospitals to ensure sustainable growth, following the strategic operational plans detailed below.

1. Commitment to Enhancing Service Capabilities for All Patient Segments

The Company has strategically integrated state-of-the-art medical innovations to ensure patients receive the highest level of treatment efficiency, especially for highly complex conditions. This includes the implementation of advanced rehabilitation robots designed to restore joint and muscle functions for post-treatment recovery and elderly care, exclusively provided through the Robotic Rehabilitation Center at World Medical Hospital. Furthermore, the installation of advanced MRI 3-Tesla technology at Kasemrad International Hospital Rattanaibeth significantly enhances diagnostic and therapeutic capabilities by providing superior precision, clarity, and speed. Such technological advancements are crucial for increasing survival rates and ensuring effective treatment outcomes for high-risk diseases, particularly those involving neurological and cardiovascular systems. Consequently, the hospital is well-positioned to serve as a primary referral hub for both affiliated network hospitals and local medical facilities.

Forward Outlook

2. Leading Tertiary Care Provider with the Exclusive JCI Accreditation in Lao PDR

Kasemrad International Hospital Vientiane, a 110-bed facility located in the capital of Lao PDR, has achieved remarkable success in providing advanced diagnostics and specialized treatments for high-complexity diseases. This is accomplished through its highly specialized Centers, which offer life-saving procedures such as open-heart surgery and neurosurgery. Furthermore, the hospital reached a historic milestone in September 2025 by becoming the first healthcare institution in Lao PDR to receive the prestigious Joint Commission International (JCI) accreditation. This global recognition has significantly bolstered confidence among local Lao citizens, expatriates living in the region, and international tourists alike.

In 2025, the hospital reported a total revenue of 397.8 million baht, representing a 13.0 percent increase yoy. The EBITDA was 65.8 million baht, marking a growth of 98.0 percent yoy. Looking ahead to 2026, the hospital remains steadfast in its commitment to launching new specialized medical centers to meet patient demands while simultaneously elevating the public healthcare standards of Lao PDR. Planned expansions include an Aesthetic Center, Breast Cancer Center and Radiation Oncology Center. Moreover, the hospital intends to strengthen its market presence by expanding its patient base and establishing a robust referral network with local clinics and hospitals. This strategy, combined with continuous upgrades of advanced medical equipment, will drive sustainable growth for high-demand units such as the Obstetrics and Gynecology Center, Physical Therapy Center, Stroke Center, and the Comprehensive Heart Center.

Public relations for specialized centers at Kasemrad International Hospital Vientiane

3. Developing an integrated ecosystem to drive Smart Hospital transformation.

The Company has strategically developed a comprehensive mobile application to facilitate a seamless patient journey, covering everything from appointment scheduling and on-site services to real-time medical result reporting. This digital transformation effectively streamlines operational steps, minimizes waiting times, and mitigates potential human errors. Furthermore, the Company has pioneered an advanced electronic referral system (e-refer) specifically designed for cancer patients. This system serves as a centralized

Forward Outlook

mechanism to systematically integrate treatment processes across our entire hospital network, encompassing diagnosis, treatment evaluation, and the final referral to the Kasemrad Ari Radiation Oncology Clinic. By ensuring medical practitioners can access patient data in advance, the system significantly reduces delays and risks associated with data fragmentation. Additionally, this digital initiative drastically reduces the reliance on physical medical documents, leading to a measurable reduction in resource consumption, energy usage, and the overall environmental impact of our healthcare delivery processes.

4. Elevating service care through renovations and new greenfield hospital expansions

The Company is steadfast in its commitment to continuously elevating the quality of medical services through the comprehensive renovation and enhancement of hospital environments, both internal and external. By upgrading medical technology and expanding specialized medical centers, we aim to deliver superior patient experiences and address the evolving needs of our patients with precision and care. Our various hospital renovation projects are progressing steadily in accordance with the Company's strategic timeline, with key details as follows:

- **Kasemrad Hospital Bangkae** is currently undergoing a major renovation of its service areas dedicated to Social Security Scheme patients. The project involves upgrading the Medical Center on the 1st and 2nd floors, which encompasses the Outpatient Department (OPD), consultation rooms, as well as the Dental, Surgical, and Ear, Nose and Throat (ENT) Centers. The renovation also extends to the pharmacy, patient waiting areas, and the parking facilities on the 3rd to 5th floors. These enhancements are expected to be fully completed and ready for service by March 2026.

- **Kasemrad Hospital Maesai** has commenced the construction of new building to accommodate the growing demand from both Thai and international patients. This new facility will feature comprehensive service areas, including a General Medical Department, Emergency Department, Pediatric Center, Dental Center and

Forward Outlook

inpatient rooms. Construction began in April 2025 and is progressing through the installation of building systems and interior architectural works. The new facility is expected to officially commence operations in Q2/2026.

○ **Kasemrad Hospital Ramkhamhaeng** is set to commence a new additional building expansion. This project is designed to increase capacity for both general patients and those patient under the social security scheme. The new facility will feature expanded outpatient (OPD) and inpatient (IPD) departments, along with a dedicated parking structure. Construction is slated to begin within 2026, with the official opening expected in 2027.

The Company currently has two new hospitals under construction, with details as follows:

○ **Kasemrad Hospital Suvarnabhumi**, located in Samut Prakan Province, is 270 licensed beds with a total investment budget of approximately 1,650 million baht, including the 25-rai land acquisition. The project situated near the Bang Phli Industrial Estate and dense residential areas, the hospital aims to serve both general patients and those under the Social Security Scheme. Construction is currently underway, focusing on the foundation and floor structures. The hospital is slated to officially commence operations in Q1/2028.

Forward Outlook

○ **Kasemrad Hospital Rayong**, located in Rayong Province, is a 268 licensed beds registered facility with a total investment budget of approximately 1,480 million baht, inclusive of the 30-rai land acquisition. The hospital strategically targets both general patients and those under the Social Security Scheme, leveraging Rayong's position as a major hub for numerous industrial estates. Furthermore, its location within the Eastern Economic Corridor (EEC) entitles the Company to significant tax incentives and other strategic privileges. Currently, construction is progressing through the third and fourth floor structures. The hospital is slated to officially commence operations in Q4/2027.

Sustainability Development

The Company is committed to conducting its business in a sustainable manner, taking into account comprehensive impacts on the environment (Environmental), society (Social), and good corporate governance (Governance), while covering all stakeholder groups throughout the value chain. For the fourth quarter of 2025, the Company received a SET ESG Ratings 2025 assessment at the AA level from the Stock Exchange of Thailand on 12 December 2025. This reflects the Company's tangible and effective performance in environmental, social, and governance (ESG) management. In addition, the Company received the Sustainability Disclosure Recognition from the Thaipat Institute for the third consecutive year under the Sustainability Disclosure Community (SDC) program on 25 November 2025, reaffirming the transparency and quality of the Company's sustainability disclosures. Such recognition underscores the Company's strong commitment to integrating sustainability issues into its corporate strategy and business operations in order to create long-term sustainable value for all stakeholders. The Company continues to drive and promote sustainability initiatives through key activities and projects as outlined below.

Environmental

The Company advances its environmental initiatives alongside business operations by aligning with SDG 12: Responsible Consumption and Production and SDG 13: Climate Action. The focus is on enhancing resource efficiency, reducing waste, and continuously lowering greenhouse gas emissions from operations, in

Sustainability Development

support of the Company's goals toward Carbon Neutrality and Net Zero Emissions, through various policies and initiatives, including:

Transition toward Net Zero and Carbon Neutrality

The Company systematically manages and reduces greenhouse gas emissions to support its Net Zero Emissions and Carbon Neutrality targets. This is achieved through participation in more than 13 voluntary greenhouse gas reduction projects under the Low Emission Support Scheme (LESS) and membership in the Thailand Carbon Neutral Network (TCNN) under the supervision of the Thailand Greenhouse Gas Management Organization (TGO). These efforts aim to enhance greenhouse gas accounting, monitoring, and the continuous development of long-term emission reduction measures.

Environmentally conscious selection of construction contractors

In the construction of Kasemrad Hospital Suvarnabhumi, the Company places strong emphasis on selecting contractors with appropriate environmental management practices, such as construction waste segregation and management, efficient resource utilization, and greenhouse gas emission monitoring, in order to mitigate environmental impacts arising from healthcare infrastructure development.

Food waste management through supplier collaboration

The Company manages patient food services through systematic collaboration with food service suppliers, reducing the burden of food waste management previously handled by hospitals. This enhances efficiency in food waste management and reduces waste generated from healthcare service processes.

Social (Patients, Employees, Business Partners, Communities, and Society)

The Company comprehensively integrates the Sustainable Development Goals into its business operations by aligning **SDG 3: Good Health and Well-being** with patient responsibility as a core principle. The Company aims to expand equitable access to quality healthcare services, promote preventive healthcare, and enhance the quality of life of the public and communities, thereby creating sustainable shared value for stakeholders and society through initiatives such as:

Expanding proactive access to healthcare services

Through the establishment of volunteer medical units at Sanam Luang on important national occasions, support for ambulances and first-aid teams at public events, and the provision of mobile dental clinics for social security beneficiaries, the Company helps reduce barriers related to time, cost, and travel, while increasing public access to healthcare services.

Enhancing public health knowledge and awareness

The Company organizes training sessions, seminars, workshops, and health talks such as Doctor Talk, Pain Free Hospital Concept, Early Detection Saves Lives, Stroke Awareness: Preventing Silent Threats,

Sustainability Development

Minimally Invasive Gynecological Surgery – A Better Choice, as well as maternal and child health education activities, to promote self-care and reduce long-term health risks.

Supporting the public healthcare system and social assistance

The Company continuously conducts blood donation activities in collaboration with the National Blood Centre of the Thai Red Cross Society, supports medical equipment and supplies for public and charitable organizations, and provides assistance to flood victims and underprivileged groups.

Enhancing patient and staff safety standards

Through Patient Safety Week, Basic Life Support (BLS) training, mass casualty incident drills, fire drills, and evacuation exercises, the Company strengthens emergency preparedness and reinforces confidence in the quality and safety of healthcare services.

Promoting employee well-being and stakeholder engagement

The Company enhances the quality of life for employees and stakeholders through welfare programs, workforce capability development, and relationship-building activities with business partners, supporting the sustainability of the healthcare value chain and long-term organizational growth.

Governance

The Company operates under principles of good corporate governance alongside sustainable growth, aligning with **SDG 8: Decent Work and Economic Growth** and **SDG 9: Industry, Innovation and Infrastructure**. This is achieved through investment in healthcare infrastructure development, the adoption of innovation to enhance management efficiency, and transparent operations to support long-term stable growth, including:

Governance of investment decisions and business expansion

The Company held the foundation stone laying ceremonies for Kasemrad Hospital Rayong and Kasemrad Hospital Suvarnabhumi on October 29, 2025, and November 3, 2025, respectively. These projects were initiated under a framework of prudent and transparent investment governance. Both developments are poised to stimulate local employment throughout their construction and operational phases, creating an opportunities for professionals, support staff, and related services, thereby driving economic growth in Rayong Province and its surrounding areas.

Enhancing governance standards and service quality to international levels

Kasemrad International Hospital Vientiane received international accreditation from the Joint Commission International (JCI) and held an official celebration ceremony attended by senior government representatives of the Lao People's Democratic Republic, Company executives, and stakeholders from various sectors. This achievement reflects the Company's commitment to quality governance, patient safety, and international-standard management, strengthening confidence and supporting sustainable regional healthcare development.
