International Patients Trend in 1Q26 & April 2026

1Q26 Top 10 Nationality by Revenue

% Growth
YoY

1		USA	+16%
2		Myanmar	+42%
3		UK	+6%
4		China	-13%
5		Germany	+15%
6		Japan	-4%
7		France	+12%
8		Qatar	+9%
9		Russia	+2%
10		Australia	+1%
Total International			+1%

Inter Patient Revenue Growth (YoY)

If excluding Cambodia & Middle East revenue, international patient revenue
+10% YoY in 1Q26

Middle East Revenue

Remark: Preliminary data in Apr 26

- The ongoing Middle East conflict, which began in **March 2026**, temporarily affect short-term travel inflows, despite Thailand remaining a preferred medical destination
- Middle East patient revenue in **April 2026** is showing signs of improvement, while BDMS continues to closely monitor the developments

Mitigation Actions

- **Strengthen alternative growth markets:-** Redirect marketing and international liaison resources and develop new inflow from medical tourism destination
- **Maintain Middle East engagement**
 - Leverage telehealth for remote follow-ups
 - Continue BDMS representative office to sustain engagement

International (ex-Cambodia and Middle East) Revenue Remains Strong

International Patient Revenue **Excluding Cambodia & Middle East**

Growth (YoY)

Remark: Preliminary data in Apr 26

- Excluding Cambodia & Middle East, international patient revenue continued to grow **robustly**
- Key growth engines in Apr 2026: **Myanmar (+34%)**, **USA (+26%)**, and **UK (+17%)** continued to deliver strong momentum

International Patient Bookings

33,000+ patients

As of April 2026

▪ CLMV	12,000+
▪ Europe	6,000+
▪ China	2,000+
▪ Middle East	2,000+
▪ Others	11,000+

Environment

Integrating eco-efficient practices into healthcare operations for a sustainable environment

- **BDMS Green Healthcare:**
Continued to advance “**BDMS Green Healthcare**” program.
- **Operational Resilience and Sustainability Amid the Global Energy Crisis**
Implemented comprehensive energy-efficiency measures, including maintaining air-conditioning at appropriate energy-efficient temperatures, and optimizing the use of cooled areas and lighting systems.

To further strengthen resource efficiency, BDMS has accelerated paperless operations and expanded the use of reusable medical textiles.

These initiatives reflect the commitment to optimizing resource efficiency while maintaining the highest standards of service quality.

Social

Advancing equitable access to health and enhancing well-being for all stakeholders

- **Build “Sustainability DNA”**
Embedded sustainability into redefined “**BDMS Core Values**”, with emphasis on building awareness starting from new employee onboarding stage.
- **Digital Literacy for BDMS Employees**
Provided foundational artificial intelligence (AI) training focusing on opportunities, risks and ethical considerations to drive operational efficiency.
- **Contribution to Societal Healthcare**
Strengthened community safety through the “**We Can Be Hero**” (Basic Life Support Training and First Aid Training), reaching over 9,200 stakeholders during 1Q26.

Governance

Advancing innovation and governance through integrated risk management.

- **Corporate Governance**
Established the “**Corporate Governance and Sustainability Committee**” to set strategic directions and policies, oversee performance, and manage sustainability-related risks.
- **Innovation-Driven Healthcare Organization**
Promoted innovation governance through the BDMS Awards, driving idea generation, knowledge sharing, and organizational innovation capabilities.
- **Supply Chain Management Enhancement**
Strengthened supply chain resilience through supplier diversification, alternative sourcing of critical medical supplies, optimized inventory management and reduced plastic use by exploring sustainable packaging options.

1Q26

Revenue Growth of BWC & BWR
(Bangkok)

+10%

Excluded intercompany transactions

Occupancy Rate of BWR

77% (of 211 rooms)

BWC: BDMS Wellness Clinic / BWR: Mövenpick BDMS Wellness Resort

BDMS Wellness Clinic International Market in 1Q26

GCC declined by 17.9%, while non-GCC markets grew strongly by 51%.

Growth was driven by preventive services and expansion in international (non-GCC) markets, with notable upside from the USA, Australia, CLMV, and China.

KEY INSIGHT

GCC performance declined, primarily due to the impact of Ramadan and ongoing geopolitical tensions. However, this was partially offset by an increase in average spending per transaction.

WELLNESS TEAM THAILAND

PRICING GOVERNANCE

Medical Inflation

- Higher treatment cost across the healthcare system
- Patients and insurers are more sensitive to affordability

Cost Inflation

- Drug, supplies, manpower, technology, and quality investment continued to increase

Insurance Dynamics

- Preferred hospital networks
- Tighter claims and health benefits
- Co-payment products

BDMS focuses on disciplined pricing, cost visibility, and affordability – not broad-based price pass-through.

- ✓ Selective pricing by case complexity
- ✓ Better cost visibility for patients and payors
- ✓ Maintain clinical quality & sustainable margin

BDMS aims to protect affordability while maintaining clinical quality & sustainable margin

1. Data-driven Pricing Governance

Pricing Intelligence Unit (PIU) and real-world data support more consistent pricing

Prices are review by procedure type and disease group

Reduce price volatility and pricing leakage

Match pricing model to case type: package, episode-based, or premium pricing for high-complexity care

2. Insurance Collaboration

Transparent medical necessity: medical record, treatment pathway, utilization

Stronger pre-estimation and pre-authorization discipline

Digital claim process using 'BURT' AI tool for medical appropriateness and APIs to enhance process efficiency

Value-based packages for elective procedures where scope and cost be managed

Better data and clearer processes make the cost of care more predictable for patients and payors

1. Affordability Tool

- Packages help patients understand cost upfront
- Useful for self-pay, corporate, and insured patients

2. Insurance Alignment Tool

- Clear inclusion and exclusion reduce claim disputes
- Supports pre-authorization and cost visibility

3. Volume and Segmentation Tool

- Use packages only where clinical pathway and cost scope are clear
- Maintain premium pricing for complex and high-acuity care
- Packages are disciplined segmentation, not broad discounting

Preferred Network Participation

BDMS remains part of AIA Smart Network and MTL Smile Hospital Network

Investor Takeaway

Preferred network inclusion shows BDMS remains a trusted partner for major insurers

Disciplined segmentation, predictable cost, and quality-led pricing

OPERATIONAL STATISTICS

Operating Income and Hospital Revenue

Operating Income Trend (THB mm)

Growth YoY

Commentary

1Q26 Operating income was stable YoY, despite Thailand-Cambodia tensions and the Middle East conflict, supported by

- Higher revenue intensity
- Growth in international patient revenue (excluding Cambodia & Middle East)

Patient Revenue by Payor in 1Q26

% to hospital revenue

Insurance in 1Q26

+2% YoY

Thai and International Patients
