

Bangkok Dusit Medical Services Public Company Limited and its subsidiaries
Condensed notes to interim financial statements
For the three-month period ended 31 March 2026

1. General information

1.1 Basis for the preparation of interim financial statements

This interim financial statements are prepared in accordance with Thai Accounting Standard 34 Interim Financial Reporting, with the Company presenting condensed interim financial statements. The Company has presented the statements of financial position, income, comprehensive income, changes in shareholders' equity, and cash flows in the same format as that used for the annual financial statements and has presented notes to the interim financial statements on a condensed basis.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language interim financial statements.

1.2 Basis of consolidation

These interim consolidated financial statements include the financial statements of Bangkok Dusit Medical Services Public Company Limited and its subsidiaries ("the Group") and have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2025. There have been changes in the structure of the subsidiaries during the current period as discussed in Note 7 to the financial statements.

1.3 Accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2025.

The revised financial reporting standards which are effective for fiscal years beginning on or after 1 January 2026, do not have any significant impact on the Group's financial statements.

17. Segment information

Operating segment information is reported in a manner consistent with the internal reports of the Group that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance. The chief operating decision maker has been identified as the executive committee.

The Group has two reportable segments that are hospital operations and other businesses that support hospital business such as medical laboratories, production and distribution of pharmaceutical products/medical equipment/saline, pharmacies, assets management for healthcare business, accounting services, technology and information services, training business and insurance broker. These two segments have similar economic characteristics. They both have common customer group, similar service provision methods and similar management.

In addition, the operations of the Group are carried on in the geographical areas of Thailand and overseas.

As hospital operation is the main business segment of the Group and the segment information that has been considered based on a quantitative basis is over 90 percent of the total population both operational and geographical areas. As a result, all of the revenues, operating profits and assets as reflected in these financial statements pertain to the aforementioned reportable operating segment and geographical areas.

For the three-month period ended 31 March 2026 and 2025, the Group has no major customer with revenue of 10 percent or more of its revenues.

18. Financial instruments

18.1 Derivatives and hedge accounting

Derivatives designated as hedging instruments and hedge accounting

Foreign currency risk (Cash flow hedges)

Foreign exchange forward contracts and embedded derivatives from medical equipment purchase contracts are designated as hedging instruments in cash flow hedges of medical equipment purchase in Japanese Yen and Euro.

The duration of the contract aligns with the foreign exchange risk associated with hedging item. These forecast transactions are highly probable, they comprise about 95% - 100% of medical equipment purchase in foreign currency. The foreign exchange forward contract balances vary with the level of expected foreign currency purchases and changes in foreign exchange forward rates.

There is an economic relationship between the hedged items and the hedging instruments as the terms match those of the expected highly probable forecast transactions (i.e., notional amount and expected payment date).

Details of hedge accounting used in cash flow hedges as at 31 March 2026 are as follows:

	Consolidated/ Separate financial statements	
	Foreign exchange forward contracts	Embedded derivatives
