

Bangkok Dusit Medical Services Public Company Limited and its subsidiaries
Condensed notes to interim financial statements
For the three-month and six-month periods ended 30 June 2026

1. General information

1.1 Basis for the preparation of interim financial statements

This interim financial statements are prepared in accordance with Thai Accounting Standard 34 Interim Financial Reporting, with the Company presenting condensed interim financial statements. The Company has presented the statements of financial position, income, comprehensive income, changes in shareholders' equity, and cash flows in the same format as that used for the annual financial statements and has presented notes to the interim financial statements on a condensed basis.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language interim financial statements.

1.2 Basis of consolidation

These interim consolidated financial statements include the financial statements of Bangkok Dusit Medical Services Public Company Limited and its subsidiaries ("the Group") and have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2025. There have been changes in the structure of the subsidiaries during the current period as discussed in Note 7 to the financial statements.

1.3 Accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2025.

The revised financial reporting standards that became effective for annual reporting periods beginning on or after 1 January 2026 do not have any significant impact on the Group's financial statements.

In addition, the Federation of Accounting Professions has issued new and revised financial reporting standards which will become effective in the future. The standard involving changes to key principles is summarised below:

IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 will become effective for annual reporting periods beginning on or after 1 January 2028 and supersedes TAS 1, Presentation of Financial Statements. The standard introduces new requirements for classifying income and expenses into categories and presenting subtotals in the statement of profit or loss. It also requires disclosures of management-defined performance measures and includes new requirements for the aggregation and disaggregation of financial information.

The management of the Group is currently evaluating the impact of this standard on the financial statements in the year of initial adoption.

2. Trade and other current receivables

Trade and other current receivables as at 30 June 2026 and 31 December 2025 consist of the following:

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	30 June 2026	31 December 2025	30 June 2026	31 December 2025

Final dividends for 2024	Annual General Meeting of the shareholders on 10 April 2025	6,357	0.40
Total dividend during the six-month period ended 30 June 2025		<u>6,357</u>	<u>0.40</u>
Final dividends for 2025	Annual General Meeting of the shareholders on 9 April 2026	10,329	0.65
Total dividend during the six-month period ended 30 June 2026		<u>10,329</u>	<u>0.65</u>

15. Income tax

The Group is within the scope of the Pillar Two model rules published by the Organisation for Economic Co-operation and Development (OECD). The Group operates in jurisdictions where Pillar Two legislation has been enacted and became effective for fiscal years beginning on or after 1 January 2025. For the three-month and six-month periods ended 30 June 2026, no current tax expense related to pillar two income tax were recognised because the Group benefits from the “Transitional Safe Harbour” relief under the Pillar Two legislation.

16. Earnings per share

Basic earnings per share is determined by dividing profit for the period attributable to owner of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the period.

17. Commitments and contingent liabilities

(Unit: Million Baht)

	As at 30 June 2026				
	Consolidated			Separate	
	financial statements			financial statements	
	Within 1 year	1 - 5 years	Over 5 years	Within 1 year	1 - 5 years
Contractual commitments					
- the land and building rental contracts	7	4	-	-	-
- the office equipment rental and other service contracts	753	748	30	162	18

- the purchase contracts and the construction contracts*	1,567	1,588	-	307	1,514
Total	2,638	2,459	40	469	1,532

*The Group entered into a contract which has embedded derivatives as referred in note to interim financial statements No. 19.1.

Contingent liabilities

As at 30 June 2026, the Group had outstanding bank guarantees of approximately Baht 620 million and the Company's of Baht 52 million issued by the bank on behalf of the Group in respect of certain performance bonds as required in the normal course of business, such as facility usage and contractual performance.

18. Segment information

Operating segment information is reported in a manner consistent with the internal reports of the Group that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance. The chief operating decision maker has been identified as the executive committee.

The Group has two reportable segments that are hospital operations and other businesses that support hospital business such as medical laboratories, production and distribution of pharmaceutical products/medical equipment/saline, pharmacies, assets management for healthcare business, accounting services, technology and information services, training business and insurance broker. These two segments have similar economic characteristics. They both have common customer group, similar service provision methods and similar management.

In addition, the operations of the Group are carried on in the geographical areas of Thailand and overseas.

As hospital operation is the main business segment of the Group and the segment information that has been considered based on a quantitative basis is over 90 percent of the total population both operational and geographical areas. As a result, all of the revenues, operating profits and assets as reflected in these financial statements pertain to the aforementioned reportable operating segment and geographical areas.

For the three-month and six-month periods ended 30 June 2026 and 2025, the Group has no major customer with revenue of 10 percent or more of its revenues.

19. Financial instruments

19.1 Derivatives and hedge accounting

Derivatives designated as hedging instruments and hedge accounting

Foreign currency risk (Cash flow hedges)

Foreign exchange forward contracts and embedded derivatives from medical equipment purchase contracts are designated as hedging instruments in cash flow hedges of medical equipment purchase in Japanese Yen and Euro.

The duration of the contract aligns with the foreign exchange risk associated with hedging item. These forecast transactions are highly probable, they comprise about 95% - 100% of medical equipment purchase in foreign currency. The foreign exchange forward contract balances vary with the level of expected foreign currency purchases and changes in foreign exchange forward rates.

There is an economic relationship between the hedged items and the hedging instruments as the terms match those of the expected highly probable forecast transactions (i.e., notional amount and expected payment date).

Details of hedge accounting used in cash flow hedges as at 30 June 2026 are as follows:

	Consolidated/ Separate financial statements	
	Foreign exchange forward contracts	Embedded derivatives
Carrying amount of the hedging instrument (Million Baht)	(161.9)	(37.3)
Notional amount (Million Baht)	1,201	1,292
Average forward rate (Baht/Japanese Yen)	0.237	-
Strike rate (Baht/Japanese Yen)	-	0.2147 - 0.2372
Strike rate (Baht/Euro)	-	34.9269 - 38.6034
Hedge ratio	1:1	1:1
Maturity date	2027 - 2029	2027 - 2029

19.2 Fair value of financial instruments

Since the majority of the Group financial instruments are classified as short-term or bear floating interest rates or fixed interest rates which are close to market rate, their fair value is not expected to be materially different from the amounts presented in the statement of financial position.
