Review report and consolidated and separate financial information
For the three-month and six-month periods ended 30 June 2026

Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of Bangkok Dusit Medical Services Public Company Limited

I have reviewed the accompanying consolidated financial information of Bangkok Dusit Medical Services Public Company Limited and its subsidiaries ("the Group"), which comprises the consolidated statement of financial position as at 30 June 2026, the related consolidated statements of income and comprehensive income for the three-month and six-month periods then ended, and the related consolidated statements of changes in shareholders' equity and cash flows for the six-month period then ended, as well as the condensed notes to the interim consolidated financial statements. I have also reviewed the separate financial information of Bangkok Dusit Medical Services Public Company Limited for the same periods (collectively "the interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 Interim Financial Reporting. My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of Review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the standards as applicable to auditing issued by the Federation of Accounting Professions and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard No. 34 Interim Financial Reporting.

Bangkok Dusit Medical Services Public Company Limited and its subsidiaries
Condensed notes to interim financial statements
For the three-month and six-month periods ended 30 June 2026

1. General information

1.1 Basis for the preparation of interim financial statements

This interim financial statements are prepared in accordance with Thai Accounting Standard 34 Interim Financial Reporting, with the Company presenting condensed interim financial statements. The Company has presented the statements of financial position, income, comprehensive income, changes in shareholders' equity, and cash flows in the same format as that used for the annual financial statements and has presented notes to the interim financial statements on a condensed basis.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language interim financial statements.

1.2 Basis of consolidation

These interim consolidated financial statements include the financial statements of Bangkok Dusit Medical Services Public Company Limited and its subsidiaries ("the Group") and have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2025. There have been changes in the structure of the subsidiaries during the current period as discussed in Note 7 to the financial statements.

1.3 Accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2025.

The revised financial reporting standards that became effective for annual reporting periods beginning on or after 1 January 2026 do not have any significant impact on the Group's financial statements.

In addition, the Federation of Accounting Professions has issued new and revised financial reporting standards which will become effective in the future. The standard involving changes to key principles is summarised below:

TFRS 18 Presentation and Disclosure in Financial Statements

TFRS 18 will become effective for annual reporting periods beginning on or after 1 January 2028 and supersedes TAS 1, Presentation of Financial Statements. The standard introduces new requirements for classifying income and expenses into categories and presenting subtotals in the statement of profit or loss. It also requires disclosures of management-defined performance measures and includes new requirements for the aggregation and disaggregation of financial information.

The management of the Group is currently evaluating the impact of this standard on the financial statements in the year of initial adoption.

2. Trade and other current receivables

Trade and other current receivables as at 30 June 2026 and 31 December 2025 consist of the following:

19. Financial instruments

19.1 Derivatives and hedge accounting

Derivatives designated as hedging instruments and hedge accounting

Foreign currency risk (Cash flow hedges)

Foreign exchange forward contracts and embedded derivatives from medical equipment purchase contracts are designated as hedging instruments in cash flow hedges of medical equipment purchase in Japanese Yen and Euro.

The duration of the contract aligns with the foreign exchange risk associated with hedging item. These forecast transactions are highly probable, they comprise about 95% - 100% of medical equipment purchase in foreign currency. The foreign exchange forward contract balances vary with the level of expected foreign currency purchases and changes in foreign exchange forward rates.

There is an economic relationship between the hedged items and the hedging instruments as the terms match those of the expected highly probable forecast transactions (i.e., notional amount and expected payment date).

Details of hedge accounting used in cash flow hedges as at 30 June 2026 are as follows:

	Consolidated/ Separate financial statements
