Rehabilitative & Transitional Care

Post-acute rehab & home services
support for continuity of care

Center of Excellence

Enhancing comprehensive specialized healthcare through 9 **Centers of Excellence**, advanced treatment innovations, and superior clinical outcomes, with a focus on **8 key diseases**

1. Cardiology

2. Neuroscience

3. Cancer

4. Orthopedic

5. Trauma

6. Colorectal Care

Extended Center of Excellence

7. Dental Care

Extended Center of Excellence

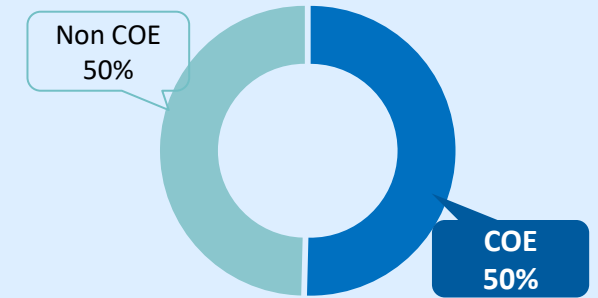

8. Occupational Health

Extended Center of Excellence

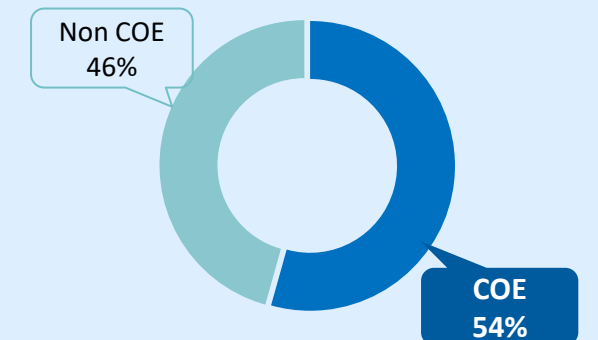

Revenue contribution (6M26)

EBITDA contribution (6M26)

with ~26% EBITDA Margin

Continued Cooperation with Local and International Institutions for Education, Research and Innovation

Oregon Health & Science University

Collaboration on Occupational Health, Cardiac, GI Cancer, Bone Marrow Transplant, CAR-T Cell project, Rehabilitation, Simulation and Pediatric Emergency Care, Pediatric critical care

Mass General Brigham

New Collaboration on Nursing program for leadership & innovation

Centre Hospitalier Universitaire de Toulouse

Collaboration for education, seminars and research on orthopedics

Shirley Ryan AbilityLab

Collaboration with Shirley Ryan AbilityLab on the development of a next-generation Center of Excellence in Rehabilitation at Bangkok Hospital Headquarters

Prof. Dr. Keith L. Black

Director of the Maxine Dunitz Neurosurgical Institute at Cedars-Sinai

Collaboration on brain health & wellness

University of Occupational and Environmental Health, Japan

Samitivej Group collaboration for education on occupational health

Mayo Clinic

Bangkok Hospital Pattaya collaboration with Mayo Clinic on heart failure

Others

Missouri Orthopaedic Institute, National Cancer Center Japan, Sano Hospital, Nagoya University, Kameda Medical Center, Takatsuki Hospital, Yamagata University and Other institutions

Projects in the Pipeline

Expanding Capacity at New & Existing Locations

~9,300 beds

2025

- ✓ Samitivej International Children (103 beds)
- ✓ Bangkok Chiangmai (90 beds)
- ✓ Phyathai Bowin (220 beds)
- ✓ Bangkok Khao Yai (71 beds)

Greenfield project

Remark:- Structured beds

2026

- ✓ Bangkok Maptaphut (2 beds)
- ✓ Bangkok Surat (44 beds)
- ✓ Bangkok Hua Hin (50 beds)

2027

- Bangkok Udon – Radiation Center

~9,400 beds

2028-2030

- New Rehabilitation Building at Headquarters (BHQ)
- Bangkok Proton Center at BHQ
- Bangkok Phuket – new OPD building
- Expansion of existing hospitals

WellEra
BANGKOK

To be opened
in 2030

Total 29 bn project covering
~207,000 sqm

URBAN WELLNESS RETREAT
Lifestyle Destination Retreat

168 Keys, 21 Floors

Net Saleable Area: ~16,000 sqm

CAPELLA RESIDENCE

Operated by

CAPELLA

262 Keys, 46 Floors

Net Saleable Area: ~48,000 sqm

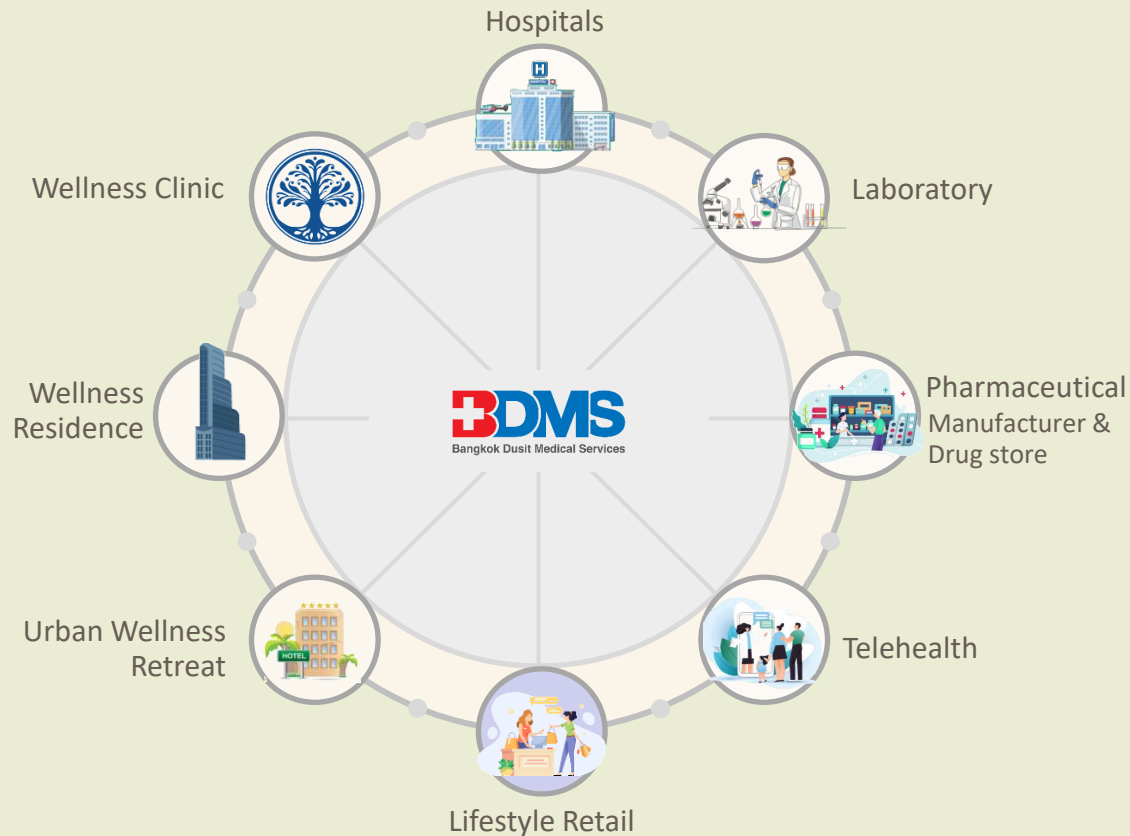

BDMS WELLNESS CLINIC

Operated by

WellEra: Key Synergies to BDMS

1 | Expanding Customer Base via Cross-Referrals; Supporting Center of Excellence

- Integrated ecosystem drives patient flow
- Cross-referrals across all touchpoints
- New customer acquisition

2 | Higher-Value Cases

- Referral to Higher-Value Treatments
- Long-term Engagement
- Higher Lifetime Value per Customer

3 | Brand Strengthening

- Healthcare & Wellness Lifestyle Connectivity
- Clear Differentiation vs. pure-play hospitals
- Broader Brand portfolio & Long-term Value

WellEra Boosting BDMS Growth Momentum

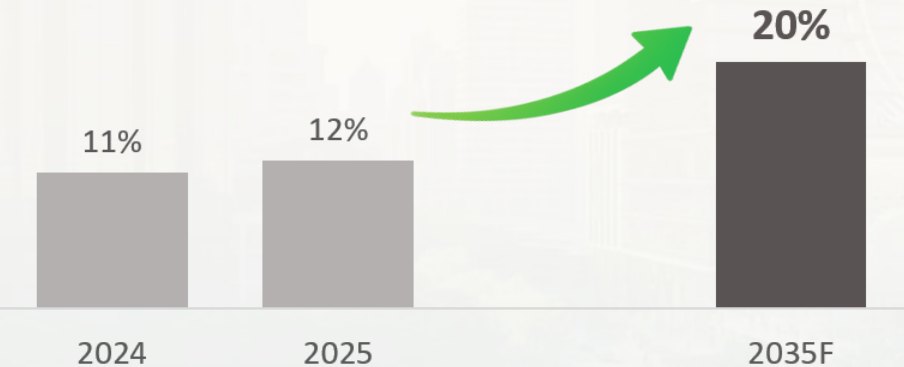

WellEra Revenue Mix for 5 Yrs (2030F-2034F)

Uplift BDMS Revenue 5yrs CAGR (2030F-2034F)

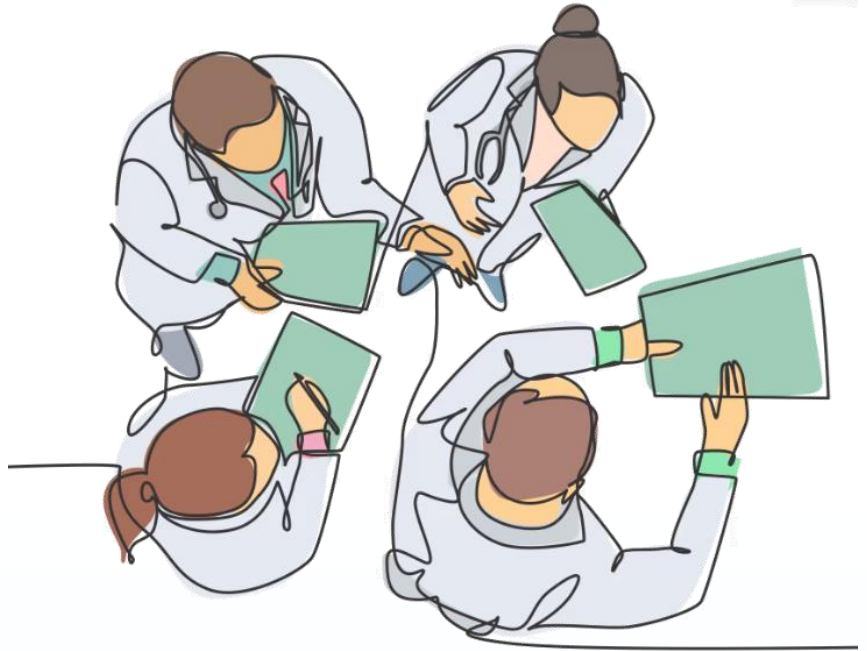

Rising Wellness Contribution to BDMS

% Wellness Revenue to BDMS Revenue

Remake: Wellness included preventive medicine, checkup, rehab, dental and skin

Total International			Flat

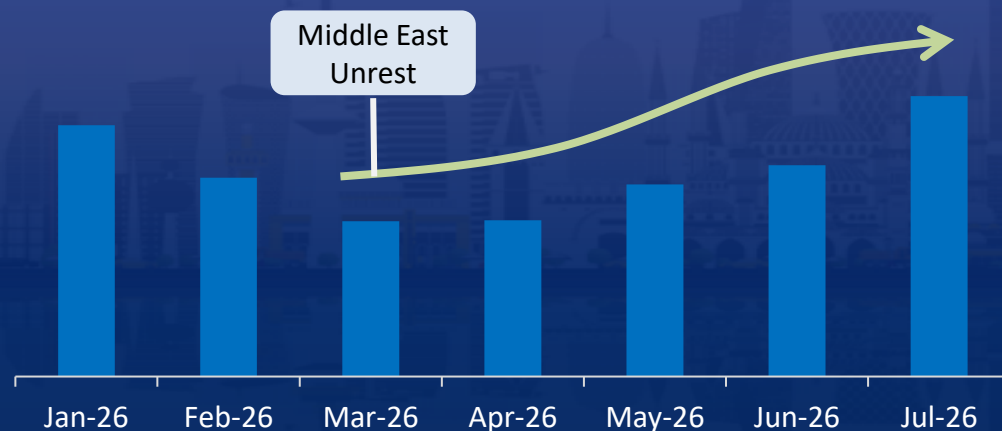

Inter Patient Revenue Growth (YoY)

+10% YoY
excluding Cambodia &
Middle East revenue

Growing International Patient Demand

Middle East Revenue Rebounds

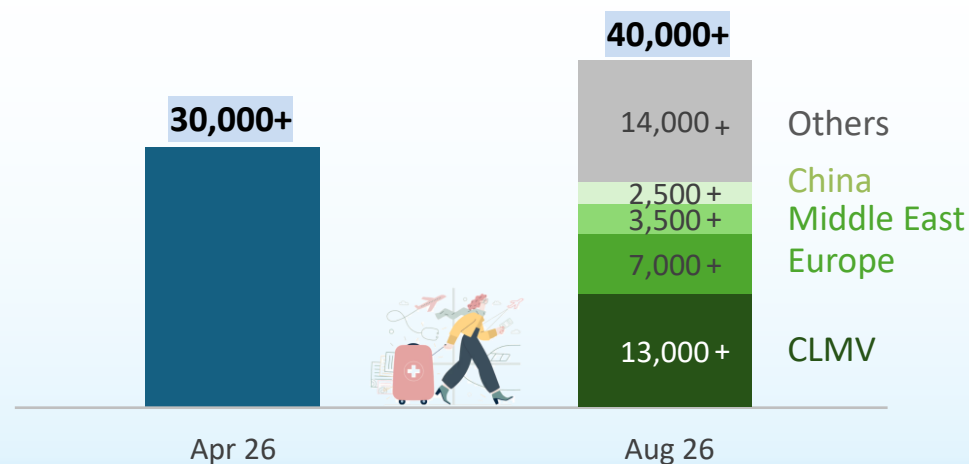

Remark: Preliminary data in Jul 2026

- Middle East patient revenue rebounded after the March 2026 slowdown, with momentum continuing into July 2026

Rising International Patient Bookings Across all Nations

40,000+ patients
As of August 2026

Gain More International Patients

Taking Care of Our Partners & Customers and Finding New Opportunities

China

- **5 BDMS China Collaboration Centers** in Beijing, Shanghai, Guangzhou, Chengdu & Kunming
- Work closely with TAT, Royal Thai Embassy, Chinese Embassy in Thailand, medical agents, airlines and insurance companies

CLMV

- Update our agents with hospital information
- Agents' visit
- Expand local network

Middle East

- Open **BDMS Saudi Arabia Collaboration Center** in Riyadh with Saudi staff
- Roadshow and attend GCC Healthcare Trade Fairs
- Sign contracts with agents, train the agents' front-line teams
- Ongoing promotion in Middle East Media

BDMS STRATEGIC PRIORITY

Health Ecosystem: Value Creation of Good Health

INDIVIDUAL VALUE

- **Empowerment**
(Long live, Fulfillment, Productivity)
- **Resilience**
(Better stress management, Preventive of illness)

SOCIAL VALUE

- **Better health outcome**
(Higher-value care)
- **Accountability & Coordination**
(Sustainable health community)

ECONOMIC VALUE

- **Economic boost**
(Healthy workforce, increase productivity)
- **Value optimization**
(Lower long term healthcare expense)

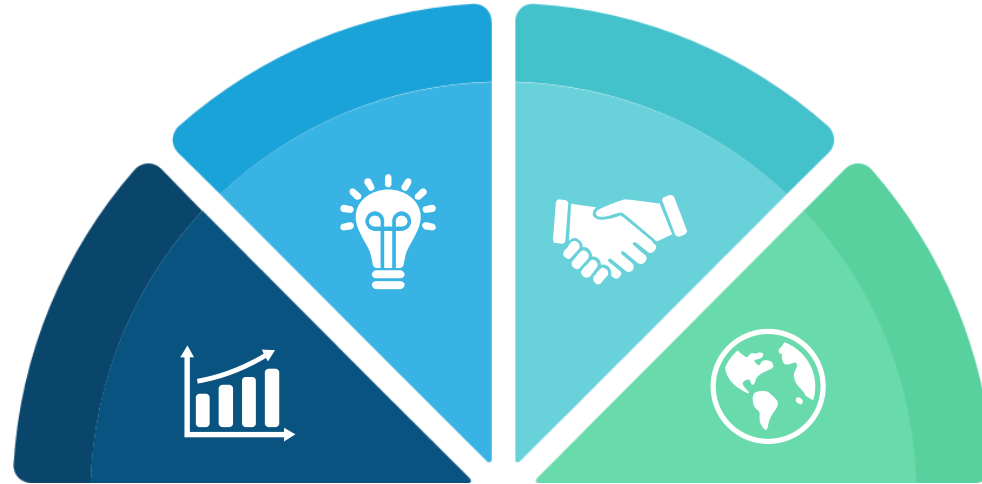

Pharmaceutical Manufacturers

Driving a Future where Individuals and Communities Lead their Own Journey toward Better Health and Well-Being

Improve Outcomes • Enhance Efficiency • Deliver Integrated Care

BUSINESS EFFICIENCY

- Maximize efficiency on existing assets by improving asset utilization, upgrading medical capabilities
- Business cluster strategy
- Supply chain management

SMART HEALTHCARE

- AI adoption to enhance clinical accuracy & efficiency
- Enable data-driven decisions
- Integrating services ensure seamless continuum of care

EXCELLENCE & TRUST

- Value based care
- Strengthen Center of Excellence
- Breakthrough therapies (*Proton & cell therapy*)
- Extreme age care (*geriatric & pediatric*)

MARKET EXPANSION

- Wellness tourism & local market
- International markets (*balance port & new market*)
- Increase insurance portion
- New digital gateway

AI Adoption to Enhance Both Clinical Accuracy and Operational Efficiency

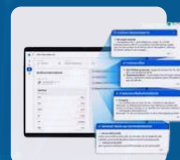

Intelligence streamlining on operation process for service efficiency

AI genetic interpretation

Smart patient management system

AI lab Interpretation (Check up)

AI Speech recognition for EMR

AI-assisted sterilization process for operation set (N-Health)

Self – care & Prevention

Registration & Scheduling

Health Assessment & Early detection

Consultation & Diagnosis

Medical treatment & Monitoring

AI Symptom checker

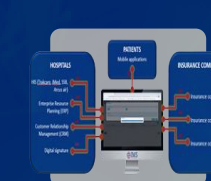

AI registration with 2 authentic verification

AI imaging diagnosis assistant

AI Chatbot Arabic translation

Intelligent insurance management system

AI integration at service touch point for excellent patient experiences

BDMS GHG Roadmap Towards 2030

2026

**Low Carbon
Healthcare Operation**

2027

**Green Transition in
Healthcare**

2030

**Natural Climate
Solution**

KEY TARGET

**Collaborate with BDMS network
to drive low-carbon healthcare business**

**Adopt adequate technologies for resource
conservation via sustainability partners**

**Engage with community to transform
new value for green growth**

GHG & ENERGY	Reduce footprint		Efficient energy consumption	70% sites install solar energy - EV car supports - CFC cooling agents replacement - Pilot smart building	80% sites install solar energy 100% use LED light system - Chiller system replacement / CPMS - All new building with smart system	100% sites install solar energy 50% Electronic vehicles - Forestation & Innovation on carbon sink 50% sites with smart buildings	
	18% GHG Reduction			30% GHG Reduction			
WASTE	Circular economy		Resource optimization	- Food Optimization – reduce food waste - Upcycling saline bottles (PP) - Reduce single used plastic in medical operation, turn to reusable	- Upcycling saline bottles (PE) - Digital transformation in operation system & smart healthcare - Apply bioplastic for packaging	- Initiate medical resource mng. prog. to reduce incineration - Redesign and develop reusable medical equipment	
	26% waste recycle			30% waste recycle			
WATER	Circular water			- Sensor value installation - Circular water management with 5R	Recycling Water using various treatment technologies	Apply innovation and technology to reduce water consumption	
	6% reduction of water use intensity			10% reduction of water use intensity			
SUPPLY CHAIN	Green value chain			- Establish ESG criteria for supplier assessment - Sustainability training and enhance awareness	- Initiate green value chain program with green critical suppliers - Research on anesthesia with supplier to reduce GHG	Initiate green value chain program with tier 1 suppliers	
	Moving forward to green value chain						

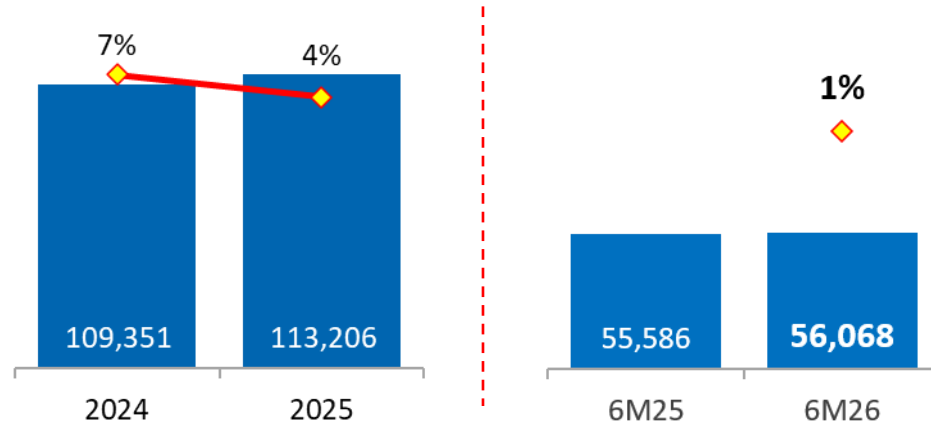

OPERATIONAL STATISTICS

Operating Income and Hospital Revenue

Operating Income Trend (THB mm)

Growth YoY

Commentary

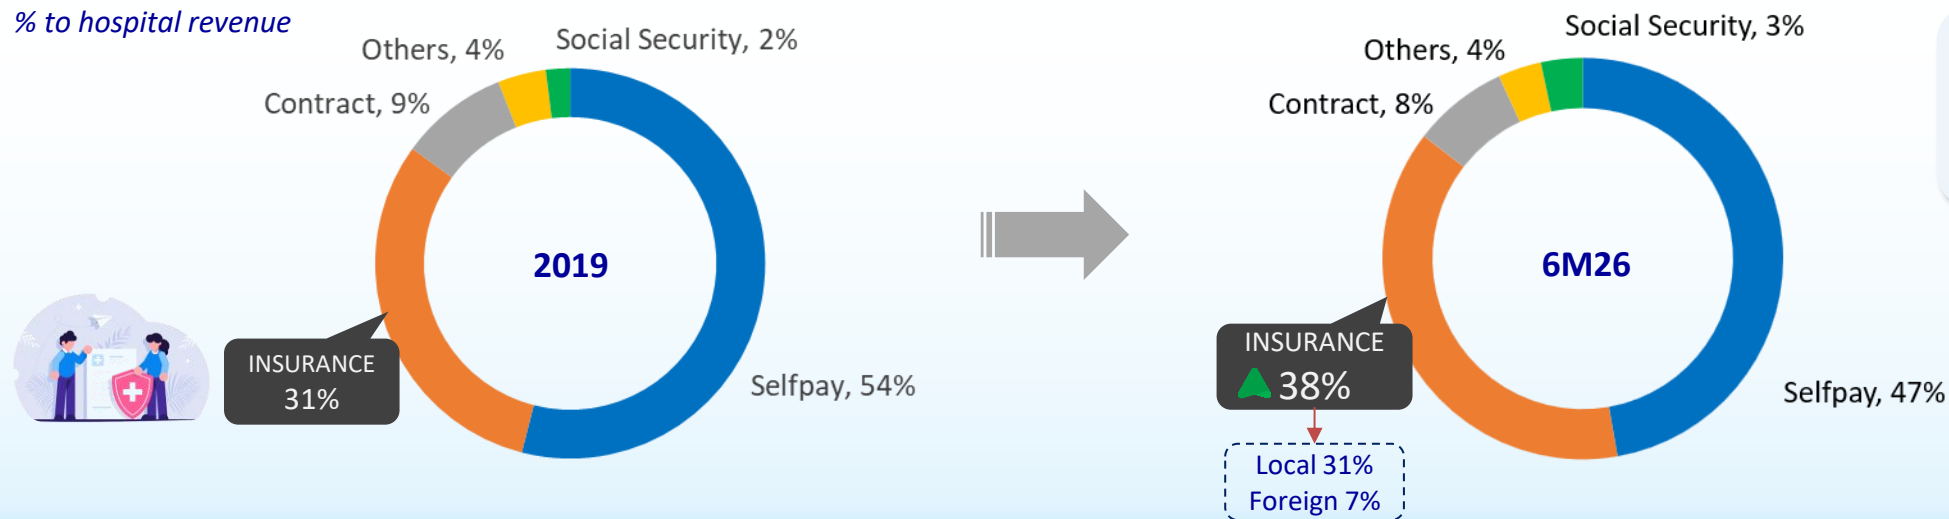

6M26 Operating income increased by **1%** YoY, despite Thailand-Cambodia tensions and the Middle East conflict, supported by

- Higher revenue intensity
- Growth in international patient revenue (excluding Cambodia & Middle East)

Patient Revenue by Payor in 6M26

% to hospital revenue

Low Healthcare Penetration

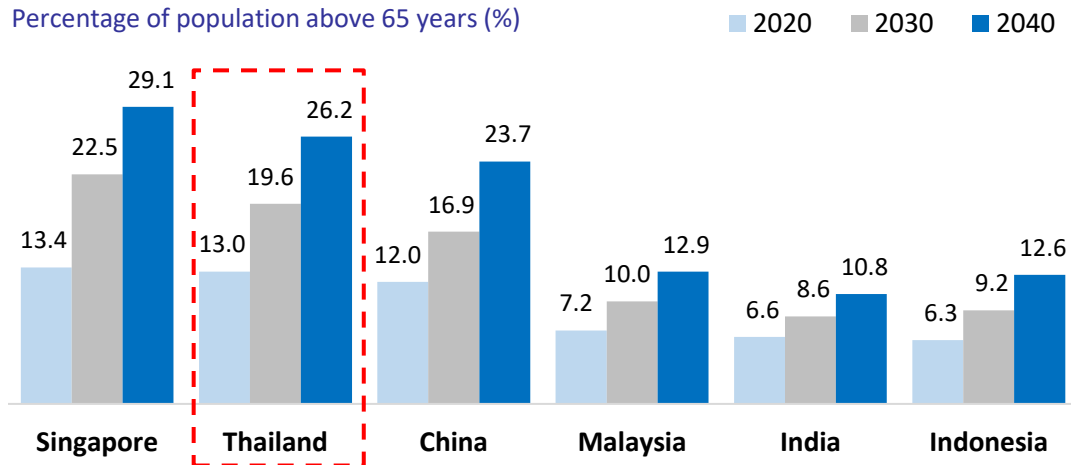

% of Healthcare expenditure to GDP

Source: WHO (2022)

Increasing Thailand Healthcare Demand

Population Growth and Aging Profile

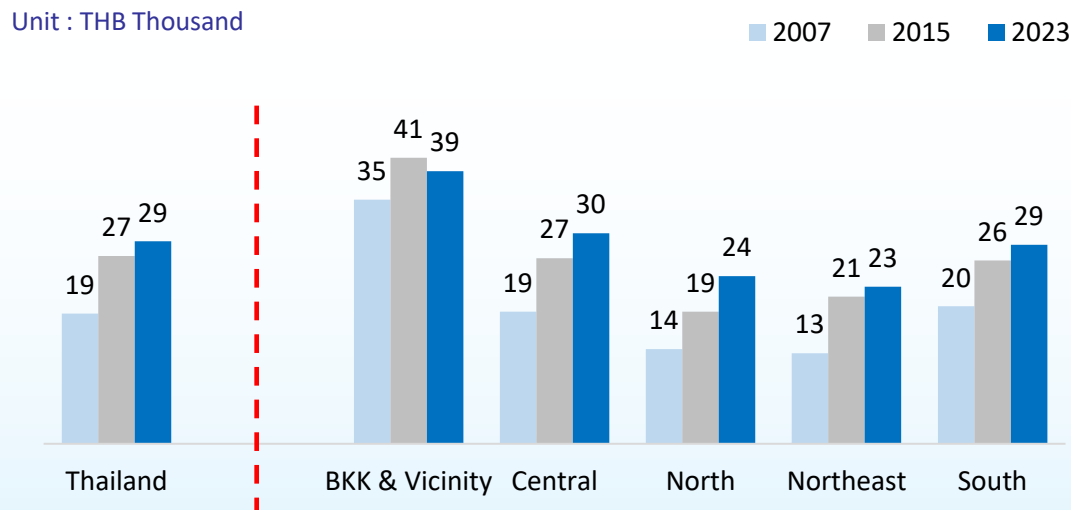

Source: UN Population Database: 2019

Commentary

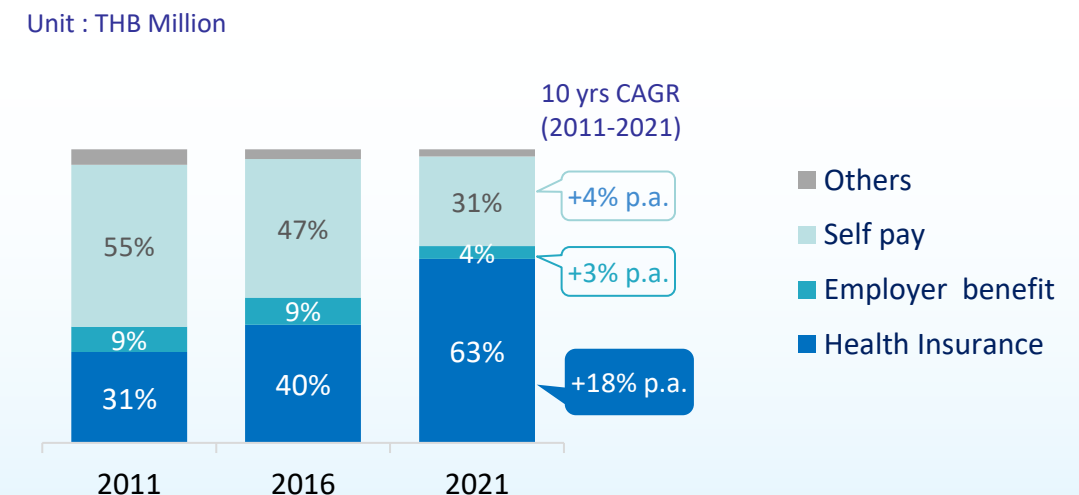

- Aging population generates greater demand for healthcare expenditure
- Monthly income per household in Thailand increased by 39% during 2007-19. This would support growing demand for healthcare
- Health insurance reduces financial burden of out-of-pocket expense. Increasing trend for health insurance will benefit private hospitals
