Independent Auditor's Report on Review of Interim Financial Information

To the Board of Directors of Chularat Hospital Public Company Limited

I have reviewed the accompanying consolidated and separate statements of financial position of Chularat Hospital Public Company Limited and its subsidiaries, and Chularat Hospital Public Company Limited, respectively, as at 31 March 2026; the consolidated and separate statements of comprehensive income, changes in equity and cash flows for the three-month period ended 31 March 2026; and condensed notes ("interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34, "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of Review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34, "Interim Financial Reporting".

(Nawarat Nitikeatipong)

Chularat Hospital Public Company Limited and its Subsidiaries

Notes to the condensed interim financial statements

For the three-month period ended 31 March 2026 (Unaudited)

These notes form an integral part of the interim financial statements.

The interim financial statements issued for Thai regulatory reporting purposes are prepared in the Thai language. These English language financial statements have been prepared from the Thai language statutory financial statements and were approved and authorised for issue by the Board of Directors on 13 May 2026.

1 Basis of preparation of the interim financial statements

The condensed interim financial statements are presented in the same format as the annual financial statements together with notes to the interim financial statements on a condensed basis (“interim financial statements”) in accordance with Thai Accounting Standard (TAS) No. 34 *Interim Financial Reporting*, guidelines promulgated by the Federation of Accounting Professions and applicable rules and regulations of the Thai Securities and Exchange Commission. The interim financial statements focus on new activities, events and circumstances to avoid repetition of information previously reported in annual financial statements. Accordingly, these interim financial statements should be read in conjunction with the financial statements of the Company and its subsidiaries for the year ended 31 December 2025.

In preparing these interim financial statements, judgements and estimates are made by management in applying the Group's accounting policies. Actual results may differ from these estimates. The accounting policies, methods of computation and the key sources of estimation uncertainty were the same as those that described in the financial statements for the year ended 31 December 2025.

8 Segment information

The Group operates private hospital business. The management considers the operations as one business segment. When consideration the business location of the Group, there is only one geographical segment as the business operates only in Thailand. Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance. The chief operating decision maker has been identified as the executive committee.

Each segment's performance is measured based on segment profit before tax, as included in the internal management reports that are reviewed by the Group's CODM. Segment profit before tax is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

9 Financial instruments

Carrying amounts and fair values

Cross currency and interest rate swap contracts

As at 31 March 2026, the Group had cross currency and interest rate swap contracts, which are financial liabilities measured at fair value through profit or loss, amounting to Baht 42.81 million (*31 December 2025: Baht 55.14 million*). The Group considered Level 2 fair value, which uses a valuation technique calculated from market value by using a valuation technique incorporating observable market data which is adjusted with counterparty credit risk, excluding the Group's credit risk and other risks, to reflect true economic value.

Most of the Group's financial assets and financial liabilities were short-term. Therefore, the Group estimates the fair value of such financial assets and financial liabilities to be similar to the carrying amounts in the statement of financial position. Long-term financial liabilities measured at amortised cost and carrying values that reasonably approximate fair value.
