2. Financial Highlights

3. New Project and Expansion Plan

4. Q&A

Current Shareholding Structure

- Chularat Hospital Public Company Limited (CHG:BK) was founded in 1986 as a private hospital operator
- Focusing on primary, secondary and tertiary medical cares with international quality standards to meet the needs of the community, the Company strives to be a leader in eastern Thailand, or "The Star of the East"
- CHG's business can be best classified into the following segments:
 - i. **Healthcare services:** Through our network of hospitals and clinics, CHG provides a comprehensive suite of medical services ranging from heart and cancer treatment to In-Vitro Fertilization solutions
 - ii. **Other businesses:** The Company's other businesses include the import and distribution of medical devices, Thai traditional medicine and beauty services, and a practical nurse assistant training center, including Hospital Management service and Heart Centers provided to public hospitals.

Our Service Cluster

IPD Beds

OPD Rooms

Note (1): CH1 and CH5 are small size hospitals (< 30 beds)

Note (2): CH Mae Sot started operation in June 2023.

Our Branch Summary

CHG has demonstrated an ability to expand a portfolio of hospitals and clinics through both greenfield and brownfield projects.

Branch	Type	Year Established	OPD Room	IPD Beds
Chularat 1 Suvarnabhumi	Hospital	1986	5	26
Chularat 2	Clinic	1990	2	-
 Chularat 3 International	Hospital	1991	60	264

Medical and IT Equipment Circulation Program

Through our Medical and IT Equipment Circulation Initiative, Chularat Hospital Group redistributes used medical and computer equipment to underserved hospitals and schools. The program promotes a **Circular Economy** approach, helping reduce inequality in access to essential healthcare equipment and computer while maximizing resource efficiency.

Strategic Collaboration Between

HEALTH

EDUCATION

PUBLIC INTEREST

With our passion for the well-being of our communities and society, we aim to make a difference and fulfill those unmet medical needs.

HEART CENTER

- **Ischemic Heart Disease** is the 4th leading cause of death in Thailand. Recognizing its danger and severity, CHG has established a 24-hour heart center, which is a referral center for Thais under government scheme (NHSO and SSO).
- CHG has also expanded its competency to operate 3 heart centers at 3 public hospitals, with an objective to help reducing the fatality rate and provide a good healthcare accessibility to people in the communities.
- In 2025, CHG treated 9,826 heart patients both at CHG and public hospitals. (9,591 cases in 2024)

STROKE CENTER

- Another cause of death # 2 among Thai people is **Cerebrovascular Disease or Stroke**, considered as one of the diseases that greatly affect the daily life of both the patient and the caregiver.
- CHG has established 24-hour Stroke Center, fully equipped with medical teams and medical equipment as well as providing **Mechanical Thrombectomy (MT)** treatment.
- With our expertise, more than 60 private and public hospitals in Bangkok, central, eastern, and nearby referred their cases to us, covering all government scheme (UCEP, SSO, Cash).
- In 2025, CHG provided Mechanical Thrombectomy (MT) treatment to 388 stroke patients. (478 cases in 2024)

NICU CENTER

"Our mission is to do our best to give the baby an opportunity to live."

Dr.Kumpol Plussind

- NICU Center was established about 30 years ago and originated from the devoid of medical facilities for **low-birth weight babies** in Samut Prakan province where the medical services were few and difficult to reach, and medical technology was not as advanced as it is now. Our specialized doctors and skilled nurses dedicated 24 hours a day to care for these babies, free of charge under the government and Company's own support.
- In 2025, CHG cared for 11 newborns weighing less than 2,000 grams with a 100% survival rate.

As a healthcare operator, the Company aims to **promote and improve the quality of life of people in society**. By disseminating the knowledge and experience of Dr. Wichit Siritattamrong, a specialist in hand and microsurgery and a team of experienced orthopedics with an objective to create and innovate different treatment methods for the patients to receive the best medical treatment as well as to enhance and develop the knowledge and expertise in this field, the Company has granted doctors, physicians and clinical specialists from public hospitals and medical schools across the country to attend the training program and field trip at the Orthopedic and Joint Center at Chularat 3 International Hospital without any obligations and expenses (the Company's own support). The Company has an intention that all trained doctors and specialists would apply and use the knowledge to help and prevent Thai people from disability or loss of organs caused by various accidents, enabling them to have better quality life and get back to work normally, resulting in a decrease in social problem arising from the disability. Started in 2014, the Company has welcomed more than 70 fellows/doctors from public hospitals. In March 2023, the Company has organized the "K-Wire Fixation, How to make a good result?" workshop with more than 150 interns, residents, fellows, doctors attending this workshop.

Medical Knowledge Sharing

Medical Knowledge Sharing

- **Chularat Inter Health School (CIH)** was founded in 2008 to provide a 6-month Certificate Program for Patient Assistant (PA), with an intention to produce professional patient assistants to support CHG's growth. CIH has conducted 3 Certificate Programs under the supervision of Ministry of Education : Elderly Care, Baby Care and Dispensary Assistant. CHG has also provided the scholarship. CIH can produce 150-200 professional patient assistants each year. While providing **"Educational and Job Opportunities"** to young generation living in CHG's area and nearby, this would also ultimately help **improving the quality of their lives, their family and the society.**
- CIH was continuously awarded with "Educational Quality Assurance" from Office of the Private Education Commission (OPEC) and recently awarded with "Social Promotion Award 2018" from "Honor the King's Legacy Project".
- In 2023, CIH is the first educational institute in Samut Prakan Province certified by Department of Health Service Support.
