Hospital Event – Cardiovascular Institute

Praram 9
Hospital

“Listen to Your Heart activity”

Organized by the Cardiovascular Institute and the Mind Center of Praram 9 Hospital.

Together, we paused to “listen to our hearts” — through perspectives of the mind, relationships, and heart health. The atmosphere was filled with smiles, meaningful moments, and inspiration to keep our hearts strong.

The latest Market Talks covering the Health Care sector. Published exclusively on Dow Jones Newswires at 4:20 ET, 12:20 ET and 16:50 ET.

0709 GMT – Praram 9 Hospital’s 2025-2027 earnings growth is likely to be strongest in the sector, Maybank Securities (Thailand)’s Nontapat Sahakitpinyo says in a research report as the brokerage maintains the stock’s buy rating. Its driver is expected to be robust revenue growth from Middle East patients following successful market penetration and given its still-low base, the analyst says. The Thailand hospital’s valuation also remains attractive at estimated 22X 2025 price-to-earnings, slightly above peers at 20X but justified by stronger growth. However, the hospital’s selling, general, and administrative expenses could stay high in 2H partly due to spending to open new markets, says the brokerage, which lowers the stock’s target price to THB29.00 from THB32.50. Shares 2.1% lower at THB23.30.
